I'll Take Your Questions Now Stephanie Grisham, 2021-10-05 The most frank and intimate portrait of the Trump White House yet Stephanie Grisham rose from being a junior press wrangler on the Trump campaign in 2016 to assuming top positions in the administration as White House press secretary and communications director while at the same time acting as First Lady Melania Trump s communications director and eventually chief of staff Few members of the Trump inner circle served longer or were as close to the first family as Stephanie Grisham and few had her unique insight into the turbulent four years of the administration especially the personalities behind the headlines

An Unprecedented Election Benjamin R. Warner, Dianne G. Bystrom, Mitchell S. McKinney, Mary C. Banwart, 2018-02-21 Written by leading scholars of political communication this book provides a comprehensive accounting of the campaign communication that characterized the unprecedented 2016 presidential campaign The political events leading up to election day on November 8 2016 involved unprecedented events in U S history Hillary Clinton was the first woman to be nominated

by a major party and she was favored to win the highest seat in the nation Donald Trump arguably one of the most unconventional and most unlikely to succeed candidates in U S history became the leading candidate against Clinton Then an even more surprising thing happened Trump won an outcome unexpected by all experts and statistical models An Unprecedented Election Media Communication and the Electorate in the 2016 Campaign presents proprietary research conducted by a national election team and leading scholars in political communication and documents the most significant and in some cases the most shocking features of the 2016 U S presidential election The information presented in this book is derived from national surveys experiments and textual analysis and helps readers grasp the truly unique characteristics of this campaign that make it unlike any other in U S history The chapters explain the underlying dynamics of this astonishing election by assessing the important role of both traditional and social media the evolving and potentially diminishing influence of televised campaign advertisements the various implications of three historic presidential debates and the contextual significance of convention addresses Readers will come away with an appreciation of the content and effects of the campaign communication and media coverage as well as the unique attributes of the electorate that ultimately selected Donald Trump as the 45th president of the United States 2016: the Campaign Chronicles JD Foster,2019-10-08 The 2016 campaign ended with Donald J Trump as president elect of the United States astounding just about everyone More than two dozen candidates had vied for the two parties nominations leaving Trump and former Secretary of State Hillary Clinton Her flaws standing in rough proportion to her strengths Clinton had been the presumed Democratic nominee though Bernie Sanders had nearly upended her run In contrast Trump s capturing the Republican nomination seemed preposterous before and after the fact The campaign overall was far more than the result It was a long tumultuous outrageous frolic of American politics The Campaign Chronicles was written contemporaneously with events as they happened so as to capture the sense of each amazing if horrific moment Even weeks after the election the country remained stunned by the outcome which as we learned foretold of a presidency unlike any before it But before the presidency there was a campaign about which many histories will be written But before the histories must come the chronicling history stripped of faded memories and coherent perspective Herewith such a chronicling written from a determinedly neutral posture presenting the good with the bad for all concerned American Government Scott F. Abernathy,2020-12-10 The main strength of this book is that it presents a human side to American Government that challenges students to think critically while still presenting the teaching side with objectives self tests and chapter reviews Kathleen Barrett University of West Georgia In the Third Edition of American Government Stories of a Nation author Scott F Abernathy tunes in to the voices of all Americans showing how our diverse ideas shape the way we participate and behave the laws we live by and the challenges we face From the Constitutional Convention to the 2020 presidential election each chapter features rich personal narratives that illustrate how the American political system is the product of strategies calculations and miscalculations of countless individuals It focuses on real people
