The Publishers Weekly, 1928 **Peter Matthiessen and Ecological Imagination** Intaek Oh, 2010 Peter Matthiessen and *Ecological Imagination* offers an ecocritical reading of the Watson Trilogy: *Killing Mister Watson* 1990, *Lost Man's River* 1997, and *Bone By Bone* 1999, which draws together themes Matthiessen has been exploring both in his fiction and nonfiction. While this study argues that his ecological imagination comes from his unique experience as a novelist, naturalist, environmentalist, social activist, and a student of Zen, it also illustrates that for Matthiessen economic, political, social, racial, psychological, epistemological, and ecological issues are all inseparably interconnected. Set in the Everglades frontier in the formative era of American industrial capitalism, Matthiessen's novels are his grand attempt to reexamine the root causes of ecological disaster in the region and the costs to the people and the land that accompanied the conquering of the frontier.

Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives beyond the required schoolwork. *Supporting Reading Grades 6-12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner.
