

Step 7

Mascara

Always wear mascara because even the most subtle and natural-looking eye makeup needs it. The mascara makes your natural lashes a darker look and is what if you have a sparse full set. The mascara that you choose will affect the look of your eyes. If you are looking for a dramatic look, choose a mascara that has a lot of volume and lengthening properties. There are a lot of mascaras out there, so it is a good idea if you want a dramatic look, to look at it and choose one to suit you.

When applying mascara, hold the mascara wand parallel to the floor and brush from the base of the lashes to the tips. Hold the wand in place for a moment so the lashes can catch the mascara. Then apply more to the same eye.

If you choose to curl the lashes, do so before applying mascara. Curling before, after applying mascara, can break the lashes.

The ideal mascara makes the most impact. There should be a subtle look.

Step 8

Blush

Always add a natural shade of blush to the apples of cheeks. Blend up toward the hairline, down toward the under-eye area.

For long-lasting results, have a range of blushing shades to try.

For an extra glow, first a shimmer powder on the cheekbones with a fine blusher brush, or use a shimmery blusher applied with your fingers.

Do not blow off excess powder blush from your face. If you feel you are applying, it is better to build color using the light blusher shade to achieve a more subtle and soft look.

The range of colors that is a good option for the skin.

To add a warm tone to skin, use a blusher on areas where the sun normally hits the face—cheeks, forehead, nose, and chin.

Step 9

Lipstick

Start with clean, smooth lips.

Several lipstick shades and about **fourteen** are the standard. Usually there are more than 14 lip shades available. Choose a lipstick shade that is a good match for your complexion.

For a natural look, choose a shade that is a good match for your complexion. The more the color, the more natural the look.

For a dramatic look, choose a shade that is a good match for your complexion. The more the color, the more dramatic the look.

Step 10

Lip Liner

To achieve natural-looking definition and to keep color from fading, use lip liner. A lip liner is a product that is used to define the lips and to make the lips look more defined.

To achieve a natural look, choose a shade that is a good match for your complexion. The more the color, the more natural the look.

Color Theory for the Makeup Artist Katie Middleton,2018-06-12 *Color Theory for the Make up Artist Understanding*

Color and Light for Beauty and Special Effects analyzes and explains traditional color theory for fine artists and shows how to apply it directly toward make up applications. Make up artists control color the same way a painter does. They choose color palettes, match colors, blend new colors and create designs on a canvas that is always changing. Some colors cancel others, some balance each other and some oppose other colors. However, painters seldom have to consider inconsistencies in how their art will be lit and where it will be displayed the way that a make up artist does. This book teaches how to mix any color using just red, yellow, blue and white. It discusses the reason for variations in skin colors and undertones and how to identify and match these using make up while choosing flattering colors for the eyes, lips and cheeks. Colors found inside the body are explained for special effects make up like why we bruise, bleed or appear sick and ideas and techniques are also described for painting prosthetics. The book also explains how lighting affects color on film, television, theater and photography sets and how to properly light a workspace for successful applications. Whether you are a professional or a beginner, you will never stop learning. There will always be new products, techniques and fashions; this book provides guidance and inspiration to keep practicing, creating and honing your skills. **Harper's Bazaar**, 1867 *Bobbi Brown Beauty Rules* Bobbi
