*Christ Without Adam* Benjamin H. Dunning, 2014-04-22 The apostle Paul deals extensively with gender embodiment and desire in his authentic letters yet many of the contemporary philosophers interested in his work downplay these aspects of his thought *Christ Without Adam* is the first book to examine the role of gender and sexuality in the turn to the apostle Paul in recent Continental philosophy It builds a constructive proposal for embodied Christian theological anthropology in conversation with and in contrast to the Paulinisms of Stanislas Breton Alain Badiou and Slavoj Žižek Paul's letters bequeathed a crucial anthropological aporia to the history of Christian thought insofar as the apostle sought to situate embodied human beings typologically with reference to Adam and Christ but failed to work out the place of sexual difference

within this classification As a result the space between Adam and Christ has functioned historically as a conceptual and temporal interval in which Christian anthropology poses and re poses theological dilemmas of embodied difference This study follows the ways in which the appropriations of Paul by Breton Badiou and Žižek have either sidestepped or collapsed this interval a crucial component in their articulations of a universal Pauline subject As a result sexual difference fails to materialize in their readings as a problem with any explicit force Against these readings Dunning asserts the importance of the Pauline Adam Christ typology not as a straightforward resource but as a witness to a certain necessary failure the failure of the Christian tradition to resolve embodied difference without remainder This failure he argues is constructive in that it reveals the instability of sexual difference both masculine and feminine within an anthropological paradigm that claims to be universal yet is still predicated on male bodies

**Signs and Wonders** Ellen T. Armour,2016-03-15 We are told modernity's end will destabilize familiar ways of knowing doing and being but are these changes we should dread or celebrate Four significant events and the iconic images that represent them catalyze this question the consecration of openly gay Episcopalian bishop Gene Robinson the mistreatment of prisoners at Abu Ghraib prison the politicization of the death of Terri Schiavo and the disastrous response to Hurricane Katrina Framed by an original appropriation of Michel Foucault and drawing on resources in visual culture theory and the history of photography Ellen T Armour explores the anxieties passions and power dynamics bound up in the photographic representation and public reception of these events Together these phenomena expose modernity's benevolent and malevolent disruptions and reveal the systemic fractures and fissures that herald its end for better and for worse In response to these signs and wonders Armour lays the groundwork for a theology and philosophy of life better suited to our post modern moment one that owns up to the vulnerabilities that modernity sought to disavow and better enables us to navigate the ethical issues we now confront

**Judith Butler, Michel Foucault, and the Theology of Freedom** Gunda Werner,2023-12-22 This book explores how Judith Butler's work on gender and the shaping of the human subject and Michel Foucault's notion of parrhesia speaking the truth can be made fruitful for a theology of freedom The volume illustrates the importance of three concepts freedom gender body and power critique and how this triad provides the foundational categories and structural elements of a theology of freedom By starting from an analysis of power and the performative potential of gendered embodiment freedom can be thought of as the basis of creative and critical human action and thereby implemented in theology The chapters feature several theological historical case studies that are representative of topics that continue to shape contemporary Catholic norms and thought In particular the author reflects on the 13th century with the idea of personal sin and confession and the 19th century with a gender ideology that has led to the marginalization of difference and dissent The book shows how Butler and Foucault can provide essential insights for Catholic theology and is

,2001 Theses on any subject submitted by the academic libraries in the UK and Ireland      *Marks of His Wounds* Beth Felker Jones,2007-04-12 It is a central tenet of Christian theology that we will be resurrected in our bodies at the last day But we have been conditioned writes Beth Felker Jones to think of salvation as being about anything but the body We think that what God wants for us has to do with our thoughts our hearts or our interior relationships In popular piety and academic theology alike strong spiritualizing tendencies influence our perception of the body Historically some theologians have denigrated the body as an obstacle to sanctification This notion is deeply problematic for feminist ethics which centers on embodiment Jones s purpose is to devise a theology of the body that is compatible with feminist politics Human creatures must be understood as psychosomatic unities she says on analogy with the union of Christ s human and divine natures She offers close readings of Augustine and Calvin to find a better way of speaking about body and soul that is consonant with the doctrine of bodily resurrection She addresses several important questions What does human psychosomatic unity imply for the theological conceptualization of embodied difference especially gendered difference How does embodied hope transform our present bodily practices How does God s momentous yes to the body in the Incarnation both judge and destroy the corrupt ways we have thought produced constructed and even broken bodies in our culture especially bodies marked by race and gender Jones s book articulates a theology of human embodiment in light of resurrection doctrine and feminist political concerns Through reading Augustine and Calvin she points to resources for understanding the body in a way that coheres with the doctrine of the resurrection of the flesh Jones proposes a grammar in which human psychosomatic unity becomes the conceptual basis for sanctification Using gender as an illustration she interrogates the difference resurrection doctrine makes for holiness Because death has been overcome in Christ s resurrected body human embodiment can bear witness to the Triune God The bodily resurrection makes sense of our bodies of what they are and what they are for      God, Gender and the Bible Deborah Sawyer,2002-07-18 Deborah Sawyer discusses this crucial yet unresolved question in the context of contemporary and postmodern ideas about gender and power based on fresh examination of a number of texts from Hebrew and Christian scripture Such texts offer striking parallels to contemporary gender theories particularly those of Luce Irigaray and Judith Butler which have unravelled given notions of power and constructed identity Through the study of gender in terms of its application by biblical writers as a theological strategy we can observe how these writers use female characters to undermine human masculinity through their higher intention to elevate the biblical God God Gender and the Bible demonstrates that both maleness and femaleness are constructed in the light of divine omnipotence Unlike many approaches to the Bible that offer hegemonist interpretations such as those that are explicitly Christian or Jewish or liberationist or feminist this enlightening and readable study sustains and works with the inconsistencies evident in biblical literature

**Bodies in Question** Darlene Bird, 2017-05-15 Exploring a range of subjects from the human genome project to Kierkegaard's *Fear and Trembling* the poetry of Jorie Graham to feminist Christian art the contributors pose questions around the theme Body and Voice Questions raised include Who speaks for the foetus and on what basis What effect does the near sacrifice of Isaac have on mother Sarah's body and What do embodiment and gender mean for the resurrected body and Jesus's body
