**Required Text:** Sue, D., Sue, D. W., Sue, D., & Sue, S. (2016). *Understanding abnormal behavior* (11<sup>th</sup> ed.). Stamford, CT: Cengage Learning.

## **Course Description**

This course will provide an overview of the main concepts, theories, diagnostic criteria, and current empirical findings in the field of abnormal psychology. These objectives will be assessed through examinations, assignments, and class discussions.

## **Course Objectives**

Students will work toward achieving the following objectives throughout the semester:

- Learning various means for assessing psychopathology.
- Understanding the diagnostic criteria and related symptoms for a broad range of psychological disorders.
- Understanding the major causes for these disorders and relevant treatment strategies.

## **Course Goals**

- **Goal 1: Knowledge Base of Psychology.** Students will demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
- **Goal 2: Critical Thinking Skills in Psychology.** Students will respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes.
- **Goal 3: Values in Psychology.** Students will be able to weigh evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a discipline.
- **Goal 4: Sociocultural and International Awareness.** Students will recognize, understand, and respect the complexity of sociocultural and international diversity.

## **Course Requirements:**

### **Attendance (10pts)**

Attendance will be taken at 10 random points in the semester. Attendance credit will be applied when calculating your final grade. In addition, attendance is strongly recommended, as lectures will help to clarify text readings and there will be some supplemental material provided during lecture included in your exams. Students are responsible for obtaining any lecture or in-class material missed due to absence.

## **Assigned Readings**

With the exception of the first week of lecture, you will be expected to come to class prepared, having read the assigned chapter(s) for that particular week. Class discussion and participation is expected and will be facilitated/enhanced by your having read assigned materials prior to lecture.

## **Normal Psychology Olen Oeksema 6th Edition:**

**The Secret World of Weather** Tristan Gooley, 2023-02-28 Learn to see the forecast in the hidden weather signs all around you from the New York Times bestselling author of *How to Read a Tree* and *The Lost Art of Reading Nature's Signs* In *The Secret World of Weather* bestselling author Tristan Gooley turns his gaze up to the sky bringing his signature brand of close observation and eye opening deduction to the fascinating world of weather Every cloud every change in temperature every raindrop every sunbeam every breeze reveals something about our weather if you know what to look for Before you know it you'll be able to forecast impending storms sunny days and everything in between all without needing to consult your smartphone But *The Secret World of Weather* goes far beyond mere weather prediction changing the very way we think about weather itself Weather is not something that blankets an area rather it changes constantly as you walk through woods or turn down a street The weather is never identical on two sides of a tree or even beneath it Take for example Gooley's remarkable discovery that breezes accelerate beneath a tree To Gooley this is weather a tiny microclimate that explains why people sit beneath a tree to cool down not only for the shade but subconsciously for cooler breeze And so Gooley shows us not only what the weather will be like five days from now but also what to expect about the weather around every corner By carefully observing the subtle interplay of wind cloud fog temperature rain and many other phenomena we not only form a deeper understanding of weather patterns but also unlock secrets about our environment Weather forms our landscape and landscape forms our weather Everything we see in the sky reflects where we are When we learn to read weather's signs Gooley shows us the weather becomes our map revealing to us how it has made our towns cities woods and hills what they are You'll never see your surroundings the same way again

Miller, 1990-01-31 Developmental psychopathology is the new child on the block As yet not an overly sturdy child but one clearly out of the cradle an active toddler and an enterprising explorer of the boundaries of its province It wasn't always so Only 15 years ago Thomas Achenbach in publishing the first edition of his book used a recently coined title Developmental Psychopathology and began the volume with a provoking first sentence This is a book about a field that hardly exists yet Seven years later when the second edition appeared that sentence had been deleted In place of the original 13 page chapter on the Developmental Approach to Psychopathology in Children there was a 40 page chapter focused on the biological cognitive social emotional and educational perspectives in development together with a lengthy account of developmental periods and an integrative statement on the constituents of a developmental framework Other signs and symptoms began to appear Child Development a doyen for developmentalists devoted a special issue under the guest editorship of Dante Cicchetti to an emergent developmental psychopathology This year saw the publication of a new journal Development and Psychopathology 1989 edited by Cicchetti and Nurcombe And attendees at recent meetings of the Society for Research in

Child Development can attest to the growing interest of the membership in the linkage of development and psychopathology as seen and heard via posters symposia and guest speakers     *Psychology* Robert Crooks, Jean Stein, 1991     **The Psychology of Gender** Carol Nagy Jacklin, 1992     Comprehensive Handbook of Personality and Psychopathology, Child Psychopathology Michel Hersen, Jay C. Thomas, 2006 Publisher Description     Clashing Views on Abnormal Psychology Susan Nolen-Hoeksema, 1998 A compilation of works of leading psychologists sociologists and health care professionals expressing views on 12 mental health issues in a pro con format     *Psychology* Camille B. Wortman, Elizabeth F. Loftus, Mary E. Marshall, 1992 These are the stories of the Women of the Catskills Whose Lives personify the strength of the Mountains Hailing from the home of industrious strong and creative individuals the women of the Catskills have embodied this rugged spirit best Though often overlooked in Catskill Mountain history their stories are inspiring like that of Candace Wheeler who used her rural upbringing to achieve personal success and improve life for others They are personal such as Lucy Lobdell's story A century ahead of her time she challenged conventional thoughts on equality and lifestyle Most of all they reflect the spirit of their surroundings as independent women like Marion Bullard challenged the status quo to build a better community Overcoming the physical challenges of mountain life and the societal obstacles they faced because of their gender Catskills most fearless women are revealed by local historian Richard Heppner Book jacket     Life-span human development Carol K. Sigelman, David Reed Shaffer, 1991 This life span development text known for its clear authoritative writing style and its solid research orientation offers a topical organization at the chapter level and a consistent chronological presentation within each chapter Each chapter focuses on a domain of development such as physical growth cognition or personality and traces developmental trends and influences in that domain from infancy to old age Within each developmental chapter you will find sections on four life stages Infancy Childhood Adolescence and Adulthood This unique organization enables students to comprehend the processes of transformation that occur within the many areas of human development New co author Elizabeth Rider brings to this edition her expertise in cognitive development and gender issues Additional enhancements include a stronger emphasis on biological and cultural influences a new four color design and an improved pedagogical plan

*Self-directed Behavior* David L. Watson, Roland G. Tharp, 1997 More than just a self help book this text provides readers with step by step instructions for carrying out self modification programs Readers are guided through the process of selecting a goal developing a plan and keeping a record of progress They are also alerted to ways to recognize and cope with situations that might sabotage progress     **The Cumulative Book Index** , 1990 A world list of books in the English language     Advances in Clinical Child Psychology Benjamin B. Lahey, Alan E. Kazdin, 1992-06-30 Advances in Clinical Child Psychology is an annual series designed to bring summaries of the latest developments in the field to psychologists psychiatrists educators and other professionals who are concerned with troubled children This volume like its predecessors attempts to highlight the important emerging issues and breakthroughs that are likely to guide clinical work and research in

our field of inquiry in the near future In selecting authors to contribute to this series we seek out those whose work is innovative relevant and likely to influence future work in clinical child psychology and related fields Each author is chosen either on the basis of potentially important new information or view points in his or her own work or because the author is especially well qualified to discuss a topic that is not restricted to one program of research In this volume a wide range of particularly important topics is addressed White and Sprague describe an innovative program of research aimed at identifying the underlying deficit in attention deficit disorder Schonert Reichl and Offer summarize and integrate research on gender differences in psychological symptoms among adolescents Borden and Ollendick offer a cogent proposal concerning the development and differentiation of subtypes of autism based on social behavior
