*Religion, Race, and COVID-19* Stacey M. Floyd-Thomas,2022-02-15 Examines how the dynamics emerging from the pandemic affect our most vulnerable populations and shape a new religious landscape The COVID 19 pandemic upset virtually every facet of society and in many cases exposed gross inequality and dysfunction The particular dynamics emerging

from the coronavirus pandemic have been felt most intensely by America's most vulnerable populations who are disproportionately people of color and the working poor the people whom the Bible refers to as the least of these. This book makes the case that the pandemic was not just a medical phenomenon or an economic or social one but also a religious one. Religious practice has been altered in profound ways. Controversies around religious freedom have been re-ignited over debates concerning whether government can restrict church services. Christian white supremacists not only defied shelter-in-place orders but found new ways to propagate racist attacks with their White Christian identity fueling their reactions to the pandemic. Some religious leaders including those in communities of color saw the virus as an indicator of God's wrath or as a divine test and viewed altering their traditional practices to mitigate the virus's spread as a weakening of faith. Religion, Race, and COVID 19 argues that there is a religious hierarchy in US society that puts the least of these last while prioritizing those who benefit most from white privilege. Yet these vulnerable populations draw on theological and religious resources to contend with these existential threats. The volume shows how social transformation occurs when faith is both formed and informed during crises offering compelling insight into the saliency and lasting impact of religiosity within human culture.

**Faith and Pestilence** Alberto Melloni, Federico Ruozzi, Francesca Cadeddu, 2024-12-09. This volume aims to take up the theme of the relationship between faith and pestilence which despite its topicality is rooted in a long term dimension that involves different areas of knowledge. A markedly disciplinary look brings together historical, theological, political and juridical analyses and thus allows to understand this relationship through paradigms, turning points, continuities and discontinuities. Such a wide perspective makes it possible to observe how the theme has crossed ages and religions from the fathers of the church to medicine in medieval Islam up to contemporary times with Ivan Illich's harsh critique of forced medicalization and the issues that emerged during the Covid 19 pandemic.
