**Body Contouring** Melvin A. Shiffman,Alberto Di Giuseppe,2010-09-14 As plastic surgeons we seek to combine art and science to improve the results we see in clinical practice Through our artistic sensibilities we try to understand and obtain aesthetic results Scientific analysis provides the data to predict which approaches will be successful and safe Both art and science connote a high level of skill or mastery At the present time our literature is replete with descriptions of specific procedures for body contouring However there remains a need for a definitive reference describing the basic principles to address the complete scope of body contouring including the postbariatric patient and their plastic surgery deformities Dr Shiffman and Dr Di Giuseppe saw this

need and sought to address the needs of plastic surgeons faced with the complexities of body contouring surgery. This is a comprehensive text aimed at providing multiple perspectives. The numerous sections which include a posity and lipolysis the breast abdomen chest and buttocks the extremities and liposuction offer various approaches from the foremost authors. Indeed it is with a tremendous amount of skill and mastery that Dr Shiffman and Dr Di Giuseppe have successfully edited and collated the numerous contributions to this work. In addition they have authored individually or in collaboration over a dozen of the 87 total chapters. Their combined work as editors and authors are evident throughout their text. The final result is a comprehensive contribution that will benefit all plastic surgeons seeking to improve their approach to body contouring.

**High Definition Body Sculpting** Alfredo E. Hoyos, Peter M. Prendergast, 2014-07-29 This unique book details advanced techniques in lipoplasty and autologous fat grafting for high definition body sculpting. Clear step by step explanations of techniques are accompanied by numerous color illustrations and photographs. The first section includes chapters on surface and muscular anatomy, anesthesia, assessment technologies for ultrasound assisted lipoplasty and postoperative care. High definition sculpting of the male and female abdomen, trunk, back, chest and upper and lower limbs is then described in detail and clear instruction is provided on autologous fat grafting for contouring the buttocks, breasts and pectoral areas. The book will provide a fascinating insight into the art and practice of high definition body sculpting for all surgeons who perform lipoplasty and body contouring techniques. It will also serve as an ideal aid for all practitioners who are pursuing workshops and practical training in this exciting new area of aesthetic surgery.

**Refinements in Facial and Body Contouring** Luiz Sergio Toledo, 1999 Authored by a world renowned expert in liposculpture this volume is the definitive guide to facial and body contouring. Dr Toledo describes in detail the innovative techniques he developed or perfected that require smaller incisions and shorter recovery times. Special attention is given to superficial liposculpture. Other procedures covered include CO2 laser blepharoplasty and endoscopic facelift. Each technique is demonstrated by a typical case. More than 1 000 full color photographs and drawings complement the text.

**Body Contouring and Liposuction** Alan Matarasso, 2002 **Body Contouring and Sculpting** Nikolay Serdev, 2016-12-14 Over the past decades surgical techniques have greatly progressed to improve and correct appearance. They are artistic procedures to give the highly demanded proportions. The growing public interest in aesthetic and plastic surgery interventions such as body contouring and sculpting requires clear description and differentiation of these highly sophisticated techniques, their results and combinations as well as scientific information about the different instrumentation devices and materials used. Such clarification will be hugely beneficial both for patients and

doctors having in mind the increasing number of such interventions and progressing interest for a better and healthy living including improved appearance in society The book adds some scientific news to the understanding of body contouring treatments Currently the request for atraumatic short downtime procedures predominates and demonstrates the importance of hi tech and safe liposculpture and fat transfer although they cannot totally replace surgical excision methods
