they juggle these competing interests Becky and Lise are forced to question what they thought were their politics and make difficult choices about their families and their futures federal and otherwise [BMW M-Series](#) Alan Henry,1992 Part of the Crowood AutoClassics series this book examines BMW s M cars from the M1 to the latest M5 and looks at the company s history prior to the launch of the M1 in the 1970s Each car is considered in depth including background and development specifications and driving impressions **The Autocar** ,1975 *Autocar & Motor* ,1994-05 *Sports Cars Illustrated* ,1998 **The Super Saloon** Etienne Psaila,2025-11-10 For four decades one car has stood at the intersection of luxury speed and engineering excellence the BMW M5 The Super Saloon The BMW M5 Story is a definitive chronicle of the machine that redefined what a performance sedan could be From its hand built origins in the 1980s to its hybridized future in the 2020s this is the untold story of how BMW fused motorsport precision with executive comfort and in doing so created a global icon Across generations from the straight six E28 to the thunderous V10 and the turbocharged all wheel drive marvels of today the M5 has balanced contradictions brute force and subtlety luxury and rawness speed and civility This book explores that balance in vivid fact driven detail revealing how each generation shaped not only BMW s legacy but also the very definition of the super saloon Through engineering breakthroughs design evolution and cultural milestones The Super Saloon captures the M5 s enduring magnetism its presence in films motorsport and the imagination of enthusiasts worldwide It is the story of a car that became more than a benchmark it became a symbol of perfection in motion built for those who believe performance and refinement belong on the same road [Handbook of Research on the Future of Advertising and Brands in the New Entertainment Landscape](#) Miguélez-Juan, Blanca,Bonales-Daimiel, Gema,2023-01-09 In a globalized world full of noise brands are constantly launching messages through different channels For the last two decades brands marketers and creatives have faced the difficult task of reaching those individuals who do not want to watch or listen to what they are trying to tell them By producing fewer ads or making them louder or more striking more brands and communications professionals are not going to get those people to pay more attention to their messages they will only want to avoid advertising in all media The Handbook of Research on the Future of Advertising and Brands in the New Entertainment Landscape provides a theoretical reflective and empirical perspective on branded content and branded entertainment in relation to audience engagement It reviews different cases about branded content to address the dramatic change that brands and conventional advertising are facing short term Covering topics such as branded content measurement tools digital entertainment culture and government storytelling this major reference work is an excellent resource for marketers advertising agencies brand managers business leaders and managers communications professionals government officials non profit organizations students and educators of higher education academic libraries researchers and academicians [Top Gear](#) Martin Roach,2012-05 This is the full story of the unstoppable rise of Clarkson Hammond May and The Stig and how they have transformed an ordinary programme about cars into one of the most famous and best loved TV programmes of the

Braude, 2008-11-15 For over thirty years Stephen Braude has studied the paranormal in everyday life from extrasensory perception and psychokinesis to mediumship and materialization *The Gold Leaf Lady and Other Parapsychological Investigations* is a highly readable and often amusing account of his most memorable encounters with such phenomena Here Braude recounts in fascinating detail five particular cases some that challenge our most fundamental scientific beliefs and others that expose our own credulousness Braude begins with a south Florida woman who can make thin gold colored foil appear spontaneously on her skin He then travels to New York and California to test psychokinetic superstars and frauds like Joe Nuzum who claim to move objects using only their minds Along the way Braude also investigates the startling allegations of K R a policeman in Annapolis who believes he can transfer images from photographs onto other objects including his own body and Ted Serios a deceased Chicago elevator operator who could make a variety of different images appear on Polaroid film Ultimately Braude considers his wife s surprisingly fruitful experiments with astrology which she has used to guide professional soccer teams to the top of their leagues as well as his own personal experiences with synchronicity a phenomenon he argues that may need to be explained in terms of a refined extensive and dramatic form of psychokinesis Heady provocative and brimming with eye opening details and suggestions *The Gold Leaf Lady and Other Parapsychological Investigations* will intrigue both adherents and detractors of its controversial subject matter alike **Popular Science** , 1998-08 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Car and Driver** , 2007
