Robyn Hardyman, 1900-01-01 Fairy tales have existed in every culture around the world teaching children stories of characters in imaginary worlds who undergo hardship but learn to overcome their difficult circumstances. This compelling book covers the basic components that make up fairy tales as well as the purpose these fantastic tales serve in culture. Some of the most famous fairy tales are retold in varying versions unique to different cultures followed by activities that help readers identify what these tales share in common and what sets them apart. This is the period of the Golden Age of folk and fairy tales when European folklorists sought to understand and redefine the present through the common tales of the past and long neglected stories became recognized as cultural treasures. In this rich collection distinguished expert of fairy tales Jack Zipes continues his lifelong exploration of the story telling tradition with a focus on the Golden Age. Included are one hundred eighty two tales many available in English for the first time grouped into eighteen tale types. Zipes provides an engaging general Introduction that discusses the folk and fairy tale tradition the impact of the Brothers Grimm and the significance of categorizing tales into various types. Short introductions to each tale type that discuss its history characteristics and variants provide readers with important background information. Also included are annotations short biographies of folklorists of the period and a substantial bibliography. Eighteen original art works by students of the art department of Anglia Ruskin University not only illustrate the eighteen tale types but also provide delightful and sometimes astonishing 21st century artistic interpretations of them
