

This screenshot captures a detailed view of a digital audio workstation (DAW) interface, specifically Ableton Live, during a live performance. The interface is organized into several main sections:

- Left Side:** A vertical browser panel on the left contains a list of clips and scenes, with the current clip highlighted in green. The list includes categories such as **Arrows**, **Beats**, **Chains**, **Effects**, **Audio Effects**, **Wav**, **Wav Loops**, **Key Loops**, **Prog Loops**, **Loops**, **Samples**, **Drums**, **Drum Loops**, **Audio File**, **Script**, **Script Loops**, **Automation**, **Automation Loops**, **Events**, **Events Loops**, **Control Events**, **Control Loops**, **Notes**, and **Notes Loops**.
- Middle Section:** The central workspace is a grid-based session view. It features 16 tracks (A1-A4, B1-B4, C1-C4, D1-D4) and 8 scenes (S1-S8). Each track contains clips of various colors (red, orange, green, blue, yellow, purple, grey, pink) representing different audio or visual elements. Below the session grid is a row of 16 track faders and a row of 16 solo/mute buttons. To the right of the session grid is a vertical list of 16 output channels, each with a corresponding color and a small icon.
- Bottom Section:** The bottom of the screen features a timeline and a performance view. The timeline shows a sequence of clips with their start and end times. The performance view displays a red line graph over a blue grid, representing a live performance or automation data. On the far left of the bottom section, there is a small preview window showing a close-up of the performance data.

Ableton Live 9 Guide

Jon Margulies

Ableton Live 9 Guide:

[Ableton Live 9 Power!](#) Jon Margulies, 2013 Written for musicians by a fellow musician who uses Live on a daily basis this useful guide explores fundamental and advanced Live features and provides insider tips tricks and interviews with Live power users to provide you with a comprehensive overview of the ins and outs of this powerful software
