The Manual is the concentrated knowledge of the railway world as adopted by its engineers and applies to construction

maintenance and many phases of operation The vastness of the field covered is all the more impressive when it is considered

that the Manual is the condensed form of the text representing only conclusions but based on the most elaborate

investigations and reports The Manual s usefulness is not confined to the printed text and illus trations References Are given

by footnotes to volume year and page to the context of the reports of committees the discussions of the subjects and the final

action by the Association It is therefore not only a text book but in a large measure a key to the library of the publications of
