fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination **Transnational Film and the US Wars in Iraq & Afghanistan** Marzena

Sokołowska-Paryż, Marek Paryż, 2025-01-15 This book offers insights into diverse non American national perspectives on the US led military interventions in Afghanistan and Iraq within the generic frames of the war film While the best known films about the post 9 11 wars in the Middle East are American productions various other national cinematographies have responded to these conflicts which is not surprising given the fact that international coalitions were formed to support the US military effort However non American war films about these US instigated interventions have received little attention outside their own national contexts This volume fills in the gap in the existing war film criticism by offering insights into how the Afghanistan War 2001 2021 and the Iraq War 2003 2011 have been represented in popular and documentary filmic productions in Iraq Afghanistan Great Britain Germany Denmark Poland Spain and Australia The contributions prove the need for transnationalism as an eye opening perspective on the war film genre by underscoring nationally specific social political and aesthetic differences alongside important correspondences between cultural productions across nations Transnational film and the US wars in Iraq and Afghanistan will be a key resource for scholars and researchers of film studies media and cultural studies film history war studies literary criticism and sociology It was originally published as a special issue of Journal of War Culture Studies **Hymns for the Fallen** Todd Decker, 2017-02-28 In Hymns for the Fallen

Todd Decker listens closely to forty years of Hollywood combat films produced after Vietnam Ever a noisy genre post Vietnam war films have deployed music and sound to place the audience in the midst of battle and to provoke reflection on the experience of combat Considering landmark movies such as Apocalypse Now Saving Private Ryan The Thin Red Line Black Hawk Down The Hurt Locker and American Sniper as well as lesser known films Decker shows how the domain of sound an experientially rich and culturally resonant aspect of cinema not only invokes the realities of war but also shapes the American audience s engagement with soldiers and veterans as flesh and blood representatives of the nation Hymns for the Fallen explores all three elements of film sound dialogue sound effects music and considers how expressive and formal choices in the soundtrack have turned the serious war film into a patriotic ritual enacted in the commercial space of the cinema
