Free Us from Bullying Paul T. Coughlin, 2018-08-14 Much of what we believe about bullying isn't true. An estimated twenty million oppressed children need our help today. A critical mission field awaiting Christians is to combat bullying and proclaim liberty to wounded children. To counter bullying, we must first understand some common misconceptions. It is not necessarily true that bullies have low self-esteem and come from abusive homes. It is not true that kids who aren't bullied are indifferent to those who are. Bullying is not a school problem, and teachers are not the frontline defense. Children who are bullied do not become stronger adults. Bullies cannot be stopped merely with more compassion and understanding. In fact, bullying stems from the same roots as racism, sexual harassment, and even genocide, and it requires people to combat it in similar ways that they combat other forms of oppression and injustice. We often think of combating injustice overseas, but we can combat a very real and dangerous injustice in our own neighborhoods. After more than a decade of working with tens of thousands of students, teachers, parents, and pastors, Coughlin knows that bullying represents the worst in human nature, but combating it promotes the best. Kindness and awareness, two buzzwords in today's anti-bullying movement, will not end bullying on their own. They must be activated by courage, transforming bystanders into righteous, loving protectors of targets. When we join this mission of love and justice, we will become peacemakers who are blessed and called children of God. Matt 5:9

The Films of Clint Eastwood Matt Wanat, Leonard Engel, 2018-05-15 The indefatigable Clint Eastwood, the great old man of American film, is still controversial after all these years. Many of the critical essays in this collection focus on Eastwood's 2014 *American Sniper*, a particularly controversial film and a devastating personal account of the horrors of war. Additional essays within the collection address his films that deserve more recognition than they have received to date. The chapters vary by topic and identify themes ranging from aging, race, and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work. As a collection, these essays show that none of these themes account for Eastwood's entire vision, which is multifaceted and often contradictory, dramatizing complex issues in powerful character-driven narratives.

Contemporary Anti-Muslim Politics Kenneth J. Long, 2017-02-15 *Contemporary Anti-Muslim Politics* provides a succinct but potent critique of the policies of Western nations toward Muslims, particularly the aggressive foreign policies of the United States and the exclusionary domestic policies of Europe. These policies have already claimed millions of Muslim lives. For decades, policies that rely on war, exclusion, and ghettoization have triggered conflict escalation. The actions of groups such as the Islamic State and Boko Haram are reactions to this history. Their tactics exacerbate negative stereotyping of Muslims generally, and Western military strategies cause many Muslims to pursue survivalist politics that enable and strengthen such groups. Anti-Muslim politics in Western nations takes many forms beyond war and exclusion, including racialization, stereotyping, sacrilegious cultural assaults, mass media scapegoating, and even tolerance, which implies something unpalatable in need of toleration. The gridlock brought by pluralism and

constitutionalism both in Europe and the United States serves few people well but it has locked Muslims into an especially abusive status quo
