## American Sniper Video Release:

*Through the Crosshairs* Roger Stahl, 2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper's gun or from the perspective of a descending smart bomb. But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions? *Through the Crosshairs* traces the genealogy of this weapon's eye view across a wide range of genres including news reports, military public relations images, action movies, video games, and social media posts. As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life, Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims. He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence.

God and Country: A True Story of My Journey through Indoctrination, Violence, and Jihad Will Prentiss, 2019-01-16 Will Prentiss grew up in a broken home, struggling for guidance as a teenager; he moved in with his mother, who was part of an Christian group. But he was subjected to violent abuse until he fled in fear of his life. Searching for meaning, still seeking his grounding through faith, he eventually found himself at a mosque and decided to become a Muslim. He became a strong advocate of his new community, married a Muslim woman, and faced discrimination after the 9/11 terrorist attacks. But when Muslim friends begin planning to go abroad to carry out jihad, he started working with the FBI. Although he felt compromised and conflicted, he took pride in knowing that he was protecting his community and serving his country, but that did not assuage the guilt he felt in betraying his community. Focused on themes such as morality, justice, and what it means to be an American, this account offers insights into a religion that is deeply misunderstood while sharing the true story of someone weighing the balance between faith and patriotism.

Thinking about Movies Peter Lehman, William Luhr, 2018-10-30 A complete introduction to analyzing and enjoying a wide variety of movies for film students and movie lovers alike. *Thinking About Movies* (Watching, Questioning, Enjoying, Fourth Edition) is a thorough overview of movie analysis designed to enlighten both students and enthusiasts and heighten their enjoyment of films. Readers will delve into the process of thinking about movies critically and analytically and find how doing so can greatly enhance the pleasure of watching movies. Divided roughly into two parts, the book addresses film studies within the context of the dynamics of cinema before moving on to a broader analysis of the relationship of films to the larger social, cultural, and industrial issues informing them. This updated fourth edition includes an entirely new section devoted to a complete analysis of the film adaptation of *The Girl with the Dragon Tattoo*, along with many in-depth discussions of important films such as *Citizen Kane* and *Silence of the Lambs*. The chapter on television integrates a major expansion distinguishing between television in the digital era of the convergence of the entertainment and technology industries in comparison to the era of broadcast analogue television. The final chapter places film within the current context of digital culture, globalization, and the powerful rise of China in film production and exhibition.

The authors clearly present various methodologies for analyzing movies and illustrate them with detailed examples and images from a wide range of films from cult classics to big budget award winning movies This helps viewers see new things in movies and also better understand and explain why they like some better than others Thinking About Movies Watching Questioning Enjoying Fourth Edition is ideal for film students immersed in the study of this important contemporary medium and art form as well as students and readers who have never taken a class on cinema before *Hymns for the Fallen* Todd Decker,2017-02-28 In Hymns for the Fallen Todd Decker listens closely to forty years of Hollywood combat films produced after Vietnam Ever a noisy genre post Vietnam war films have deployed music and sound to place the audience in the midst of battle and to provoke reflection on the experience of combat Considering landmark movies such as Apocalypse Now Saving Private Ryan The Thin Red Line Black Hawk Down The Hurt Locker and American Sniper as well as lesser known films Decker shows how the domain of sound an experientially rich and culturally resonant aspect of cinema not only invokes the realities of war but also shapes the American audience's engagement with soldiers and veterans as flesh and blood representatives of the nation Hymns for the Fallen explores all three elements of film sound dialogue sound effects music and considers how expressive and formal choices in the soundtrack have turned the serious war film into a patriotic ritual enacted in the commercial space of the cinema
