Journal of Anthropological Research , 2016

Afro Central Americans in New York City Sarah England, 2023-03-07 Descended from African maroons and the Island Carib on colonial St Vincent and later exiled to Honduras the Garifuna way of life combines elements of African Island Carib and colonial European culture Beginning in the 1940s this cultural matrix became even more complex as Garifuna began migrating to the United States forming communities in the cities of New York New Orleans and Los Angeles Moving between a village on the Caribbean coast of Honduras and the New York City neighborhoods of the South Bronx and Harlem England

traces the daily lives experiences and grassroots organizing of the Garifuna Concentrating on how family life community life and grassroots activism are carried out in two countries simultaneously as Garifuna move back and forth England also examines the relationship between the Garifuna and Honduran national society and discusses much of the recent social activism organized to protect Garifuna coastal villages from being expropriated by the tourism and agro export industries Based on two years of fieldwork in Honduras and New York her study examines not only how this transnational system works but also the impact that the complex racial and ethnic identity of the Garifuna have on the surrounding societies As a people who can claim to be Black Indigenous and Latino the Garifuna have a complex relationship not only with U S and Honduran societies but also with the international community of nongovernmental organizations that advocate for the rights of Indigenous peoples and blacks Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities

Sojourners of the Caribbean Nancie L. Solien González, 1988 This is a study of the Garifuna an ethnic group of mixed African and Afro American ancestry in Central America where they were exiled in the 18th century from the Caribbean island of St Vincent and in the US to which many voluntarily emigrate They maintain their ethnic identity by their language by a characteristic set of religious beliefs foods and occupations and by non Garifuna perceptions of them as an ethnic group This book shows how Garifuna history culture and adaptations especially migration have shaped contemporary ethnicity and economic development

Insurrectional Resistance of the Garifuna Revolution Andoni Castillo Perez, 2020-09-29 This book describes the other side of the vilified and untold story of the Garinagu people and highlights the peculiarity of its historical codes The author poses a problem of analysis for the nature of colonial ideas that were founded on the project of constructing visions and realities about the world and the historical social political and economic decisions and cultural changes Starting from the idea that the construction of historical reality as well as the hierarchies of peoples formed during several centuries of colonial expansion was significantly transformed through a transition from modern colonialism to global colonialism a process that certainly generated in the population think from the platforms of colonial ideas It also sets out the colonial view of the world which obeys an anthropological and axiological epistemological conception to defining the reality imposed on others so called inferiors That is to say to undertake within it a process of unmarking the logics of the idea of colonialism that has been prevented by not saying the hidden existence of multiple forms of knowledge At first moment anthropologist Castillo Perez made a retrospective and anthropological analysis of the various theses of the origin of the Garinagu people their revolutionary

process resistance and their anti colonialist journey on the island of Saint Vincent The colonial archives recorded memory of the revolution and the resistance of the Garinagu people on the island of Saint Vincent is why this work has been framed in the formulation of questions to search and consult unpublished archives including newspapers of the chroniclers related to the subject of colonization the slave trade as well as the political decisions implanted by the British Spanish and French empires during the conquest of the Caribbean between the 16th and 18th centuries This book *The Insurrectional Resistance of the Garifuna Revolution* by anthropologist Andoni Castillo Perez brings other glances in the comparison of our races As well as new discussions and a paradigm shift about the history of the Garifuna through bibliographical research in England France and consultation of some archive of Saint Vincent and Timbuktu Mali Also included are archival inquiries from the 16th and 17th centuries of the English and French a categorization of data was made allowing the comparison of information found between the chronicles of the British the French and the African expedition to the Americas The English and the French had a closer relationship with the Garinagu people during their revolution where they fought battles many of which were recorded by the chroniclers of that time and described in this book

Diaspora Conversions Paul Christopher Johnson,2007-09-03 By joining a diaspora a society may begin to change its religious ethnic and even racial identifications by rethinking its pasts This pioneering multisite ethnography explores how this phenomenon is affecting the remarkable religion of the Garifuna historically known as the Black Caribs from the Central American coast of the Caribbean It is estimated that one third of the Garifuna have migrated to New York City over the past fifty years Paul Christopher Johnson compares Garifuna spirit possession rituals performed in Honduran villages with those conducted in New York and what emerges is a compelling picture of how the Garifuna engage ancestral spirits across multiple diasporic horizons His study sheds new light on the ways diasporic religions around the world creatively plot itineraries of spatial memory that at once recover and remold their histories

Sojourners of the Caribbean: Ethnogenesis and Ethnohistory of the Garifuna Nancie L. Gonzalez,2009-01-01

Black Caribs - Garifuna Saint Vincent' Exiled People Tomás Alberto Avila,2008-08-01 The story begins in South America where people who spoke Arawak an Amerindian language fashioned a culture based on yuca or cassava farming hunting and fishing in a dense forest cut by many rivers By the year 1000 AD some of them had moved up the Orinoco River to the Caribbean Sea and its islands where they established a new way of life Later other people whom history has called Caribs moved into the Caribbean out of the same areas The Caribs welcomed and protected the Negro refugees and in time allowed them to marry the Caribs The Africans then adopted the languages culture and traditions of the Yellow Island Caribs The intermarriage brought about a rapid growth of hybrid mixture of African and Yellow Indians Caribs From this union arose a half bred race possessing some Caribs and African characteristics to which the name Garifuna or Black Carib was given
