**Impeachment** Cass R. Sunstein,2019-06-04 With insight wisdom affection and concern Sunstein has written the story of impeachment every citizen needs to know This is a remarkable essential book Doris Kearns Goodwin No one is above the law not even the president Impeachment is the most potent tool the founders gave us to ensure it and yet few of us even know how it works As Benjamin Franklin famously put it Americans have a republic if we can keep it Preserving the Constitution and the democratic system it supports is the public s responsibility One route the Constitution provides for discharging that duty a route rarely traveled is impeachment Expanding beyond violations of the law impeachment was meant to defend against any action that would undermine the foundations of our republic Harvard Law professor Cass R Sunstein provides a succinct citizen s guide to this essential tool of self government Taking us deeper than mere partisan politics he illuminates the constitutional design behind impeachment and emphasizes the people s role in holding presidents accountable In spite of the loud national debate over whether or not the House is right to impeach Trump impeachment itself remains widely misunderstood Sunstein identifies and corrects a number of common misconceptions and describes how impeachment helps is an essential piece of our constitutional order and a crucial part of the framers decision to install an empowered executive in a nation deeply fearful of kings With an eye toward the past and the future Impeachment A Citizen s Guide considers a host of actual and imaginable arguments for a president s removal explaining why some cases are easy and others hard why some arguments for impeachment have been judicious and others not And with an afterword and appendix on the current impeachment it puts the national debate in its proper historical context In direct and approachable terms it is a guide through the treacherous waters of the impeachment process so that Americans of all political convictions may use their ultimate civic authority wisely

Mercenaries: A Guide to Private Armies and Private Military Companies Alan Axelrod,2013-12-27 Mercenaries have been active in battle from the beginning of military history and as private armies and military support firms they are a major component of warfare today Security military advice training logistics support

policing technological expertise intelligence transportation all are outsourced to a greater or lesser degree in the U S military However privatization is not a uniquely American phenomenon Countries as diverse as Saudi Arabia and Australia rely on privatization in one form or another Historically heads of state politicians and other administrators have justified use of mercenaries on the basis of their effectiveness and cost savings These reasons and others continue to serve as rationales for use of private military companies in military strategy Mercenaries A Guide to Private Armies and Private Military Companies provides a comprehensive survey and guide to mercenary forces entrepreneurs and corporations active on the international military scene today including a concise history of mercenaries and private armies on land sea and in the air Narrative chapters are amply supplemented by sidebars including biographies of major figures key statistics historical and current documents contracts and legislation on private armies and outsourced military services Each chapter includes a bibliography of books journal articles and web sites and a general bibliography concludes the entire work Study Guide to Accompany the American People, Volume 1 To 1877 Neal A. Streifer, Barry Sheckley, Richard Ayers, 2017-05-17 There is too much testing in American Public Schools that is robbing teachers of valuable instructional time Some of it is mandatory but the vast majority is not and under the control of districts schools and even teachers to reduce *Testing Too Much* provides a rationale and set of three models to use in cutting back on testing to reclaim

valuable instructional time It also includes a high school case study describing how the themes proposed in the book can be accomplished Instructional time is a complex subject that is discussed in detail and the underlying research why it is so important especially for disadvantaged children To address how best to cut back on non mandated testing there is a chapter written in plain terms on how to judge the value of a test Three models are then discussed on how to approach cutting back on testing by as much as 25% that can recapture as much as ten days or more of instruction during a typical school year The goal of the book is to help school leaders and teachers find ways amongst current local testing practices to cut back improve their instruction and the educational experiences of their students
