## American Vigilantes A License To Kill:

**Killing African Americans** Noel A. Cazenave, 2018-05-16 *Killing African Americans* examines the pervasive disproportionate and persistent police and vigilante killings of African Americans in the United States as a racial control mechanism that sustains the racial control system of systemic racism. Noel A Cazenave's well researched and conceptualized historical sociological study is one of the first books to focus exclusively on those killings and to treat them as political violence. Few issues have received as much conventional and social media attention in the United States over the past few years or have for decades now sparked so many protests and so often strained race relations to a near breaking point. Because of both its timely and its enduring relevance *Killing African Americans* can reach a large audience composed not only of students and scholars but also of Movement for Black Lives activists, politicians, public policy analysts, concerned police officers and other criminal justice professionals and anyone else eager to better understand this American nightmare and its solutions from a progressive and informed African American perspective.

**AMERICAN ABSOLUTISM** Gary A. Freitas, 2024-01-29 *Disrupting the Generational Cycle of Distrust in America's 600 Year Cultural War* You are about to scan a high resolution MRI of the psychological forces generating discord and disrupting the American democratic experiment. Absolute mindedness is not a personality type, clinical disorder or social psychopathology but an archaic trust adaptation giving rise to much of today's populist frustration and anger. When trust is disrupted early in life, complexity, ambiguity and disappointment fixate on a trust/mistrust duality: good/bad, right/wrong, us/versus them. Republicans and Democrats are undergoing cultural mitosis. An evolutionary social and political speciation driving us toward an autocratic America. Constitutional originalists were raised in parental originalism emphasizing principle and discipline over empathy and reasoning. Solo mass shootings are a predictable abandonment pattern over the course of America's history of gun rights and vigilante ethos. Conspiracy theories are repetitive information diffusion in dense social networks during times of social unrest, triggering individuals pre-wired for resignation, grievance and revenge. The modern dictator: a dark triad of malignant narcissism, psychopathy and Machiavellianism. *American Absolutism* explores what happens when human adaptation loses viability as it comes face to face with an exponentially evolving complexity that is the modern human condition.

**American Nightmare** Henry A. Giroux, 2018-07-03 *Are we in the beginning of a new fascist era?* As white supremacy, ultra-nationalism, rabid misogyny and anti-immigrant fervor coalesce, a new and uniquely American form of fascism looms. Could our current moment actually bring about the end of democracy in the United States? Are Americans willing to surrender their freedom and dignity along with their ongoing struggle for equality, justice and mutual respect in the face of the rising tide of political and ideological extremism? In this provocative collection of essays, Henry Giroux warns of the consequences of doing too little as Trump and the so-called alt-right relentlessly attack critics, journalists and target the hard-earned civil rights of women, people of color, immigrants, the working class and low-income Americans. As we face down the frightening reality of living

under a system that serves only the interests of the wealthy few Giroux makes a passionate call for ordinary citizens to organize educate and resist by all available means Praise for American Nightmare In this current era of corporate media misdirection and misinformation Henry Giroux is one of the few great political voices of today with powerful insight into the truth Dr Giroux is defiantly explaining against the grain what s REALLY going on right now and doing so quite undeniably Simply put the ideas he brings forth are a beacon that need to be seen and heard and understood in order for the world to progress Julian Casablancas lead vocalist for The Strokes In frightening times like these what is desperately needed is an informed and wise voice that speaks clearly and with conviction about the situation we are in and what can be done Henry Giroux is one of the great public intellectuals of our times and American Nightmare is exactly the book for people grappling with how to understand the Trump era and how to proceed This is precisely the book that needs to be shared with friends and acquaintances It will provoke hard thinking bring clarity and stimulate much needed conversation and action Robert W McChesney co author of People Get Ready The Fight Against a Jobless Economy and a Citizenless Democracy We have no greater chronicler of these dystopian times Giroux s critique cuts to the crux of today s authoritarian crisis yet his voice remains of one hope that the people may collectively regain control Even while living though systemic efforts to privatize hope Giroux s critique enacts the sort of shared resistance that can effectively challenge authoritarianism American Nightmare demonstrates how we can resist the normalization of hate authoritarianism and alienation in Trump s America He shows us that not only are we not alone but we are among a majority who oppose the cruelties of American social policies David H Price author of Cold War Anthropology The CIA and the Growth of Dual Use Anthropology At a moment when the news cycle presents the dangers of Trumpian authoritarianism through disjointed and discrete hottakes Giroux s wide reaching analysis accounts for our current American nightmare with necessary historical context and in so doing creates an aperture for resistance more meaningful than a hashtag Natasha Lennard contributing writer for The Intercept co editor of Violence Humans in Dark Times     **Serial Vigilantes of Paperback Fiction** Bradley Mengel,2009-10-21 Rough justice has often been served in the pages of serial novels notably beginning with Don Pendleton s The Executioner in 1969 This is the first overview of the serial vigilante genre which featured such hard boiled protagonists as Nick Carter Mark Stone Jake Brand and Able Team among the 130 series that followed Pendleton s novel Serial vigilantes repeatedly take the law into their own hands establishing and imposing their own moral standards usually by force The book examines the connections between the serial vigilante and the pulp hero that preceded him and how the serial vigilante has influenced a variety of tough guys private eyes spies and cops in different media A complete bibliography for each series is featured     **Guns in America** Jan E.
