**She Hath Been Reading** Katherine West Scheil, 2012-05-15 In the late nineteenth century, hundreds of clubs formed across the United States devoted to the reading of Shakespeare. From Pasadena, California, to the seaside town of Camden, Maine, from the isolated farm town of Ottumwa, Iowa, to Mobile, Alabama, on the Gulf coast, Americans were reading Shakespeare in astonishing numbers and in surprising places. Composed mainly of women, these clubs offered the opportunity for members not only to read and study Shakespeare but also to participate in public and civic activities outside the home. In *She Hath Been Reading*, Katherine West Scheil uncovers this hidden layer of intellectual activity that flourished in American society well into the twentieth century. Shakespeare clubs were crucial for women's intellectual development because they provided a consistent intellectual stimulus more so than was the case with most general women's clubs, and because women discovered a world of possibilities both public and private inspired by their reading of Shakespeare. Indeed, gathering to read and discuss Shakespeare often led women to actively improve their lot in life and make their society a better place. Many clubs took action on larger social issues such as women's suffrage, philanthropy, and civil rights. At the same time, these efforts served to embed Shakespeare into American culture as a marker for learning, self-improvement, civilization, and entertainment for a broad array of populations varying in age, race, location, and social standing. Based on extensive research in the archives of the Folger Shakespeare Library and in dozens of local archives and private collections across America, *She Hath Been Reading* shows the important role that literature can play in the lives of ordinary people. As testament to this fact, the book includes an appendix listing more than five hundred Shakespeare clubs across America.

## **The Relocation of Culture**

Simona Bertacco, Nicoletta Vallorani, 2021-04-08 *The Relocation of Culture* is about accents and borders, about people and cultures that have accents and that cross borders. It is a book that deals with translation and nomadic identities and with the many ways in which the increasing relevance of forced migrations has affected the practice of languages and the understanding of cultures in our times. Simona Bertacco and Nicoletta Vallorani examine the theoretical and practical nexus of translation and migration, two of the most visible and anxiety-producing keywords of our age, and use translation as the method for a global cultural theory firmly based in the humanities, both as creative output and interdisciplinary scholarship. Positioning their work within the field of translation studies with important borrowings from literary and cultural studies, visual and migration studies, the authors suggest a theory of translation that makes space for complexity, considers different

languages words images sounds bodies and takes into account both our emotional pre linguistic and instinctual reaction to the other as an invader and an enemy and the responsibility for the other that lies at the heart of translation This process necessarily involves a reflection on the location and relocation of cultures in contemporary times     *Catalog of Copyright Entries.
