

American Sniper through the lens of the 4 D's of Abnormality

Deviance, Distress, Dysfunction, and Danger. Below is a breakdown of each, accompanied by relevant scenes from the film:

1. Deviance

Definition: Behavior that deviates from societal norms or expectations.

Scene: Early in the film, during Kyle's first tour in Iraq, he is confronted with a harrowing decision: a woman hands a grenade to a young boy, intending to attack U.S. soldiers. Kyle must choose whether to shoot the child to protect his comrades.

Analysis: While his actions align with military objectives, they starkly contrast with societal norms that condemn harming children. This scenario highlights how combat situations can compel individuals to act in ways that deviate from peacetime moral standards.

2. Distress

Definition: Personal suffering or emotional discomfort.

Scene: Upon returning home, Kyle exhibits signs of emotional turmoil. He experiences nightmares, becomes easily startled by loud noises, and displays irritability. In one instance, he reacts aggressively to a barking dog at a family gathering, nearly harming the animal.

Analysis: These behaviors indicate that Kyle is grappling with internal distress, a hallmark of post-traumatic stress disorder (PTSD). His inability to find peace in civilian life underscores the deep psychological impact of his combat experiences.

3. Dysfunction

Definition: Impaired ability to perform daily activities or fulfill roles.

Scene: Kyle's relationship with his wife, Taya, becomes strained due to his emotional unavailability. He often appears detached, avoids meaningful conversations, and is preoccupied with returning to combat.

Analysis: His preoccupation with war and emotional withdrawal hinder his ability to function effectively as a husband and father, illustrating how psychological issues can disrupt personal and familial responsibilities.

4. Danger

Definition: Behavior that poses a risk to oneself or others.

Scene: In a tragic turn, Kyle is killed by a fellow veteran he was attempting to help. The veteran, suffering from severe PTSD, turns violent during a visit to a shooting range.

sciences *A Global Racial Enemy* Saher Selod, Inaash Islam, Steve Garner, 2023-11-28 Prejudice against Muslims has a long and complex history. In recent decades discrimination, violence and human rights abuses against Muslims have taken a significant turn with rising reports and discussions of Islamophobia across the globe. However, much of the conversation has missed the key features of this increasingly insidious phenomenon. This original book puts race at the center of the analysis, exposing the global racialization of Muslims. With special attention paid to the United States, China, India and the United Kingdom, the authors examine both the unique national contexts and crucially the shared characteristics of anti-Muslim racism. They uncover how a range of counterterrorism policies from hyper surveillance to racialized policing and the ensuing representation of Islam have taken a decisive role in shaping social life for Muslims and have worked across borders to justify and institutionalize an acceptable state sponsored face of racism. Ultimately, *A Global Racial Enemy* argues that anti-Muslim animus is a symptom of a global and powerful form of twenty-first century racism Parameters , 2017 **Real World**
