Americas Bigfoot Fact Not Fiction:

America's Bigfoot - Fact, Not Fiction Dmitri Bayanov, 1997 Dmitri personally studied a case about a Russian Almas or Russian Snowman that occurred in the late 1800s. The female creature's name was Zana and she had been caught and tamed and lived and died within the memory of a number of people still alive at the time of the research. She was buried near the village of Tkhuina in the Ochamchiri District of Abkhazeti in the 1880s or 1890s. She had been successful in bearing some children with matings from the men in the village. This story of the investigation on Zana plus many sighting reports from Russia are what this delightful book is made of. **America's Bigfoot: Fact, Not Fiction** Dmitri Bayanov, 1997-12-15 On the afternoon of October 20, 1967, in the mountains of Northern California, Roger Patterson accompanied by Bob Gimlin filmed a legendary creature dubbed Bigfoot or Sasquatch. The film was shown to American scientists at the Smithsonian Institution who took one quick look at it and wrote it off as a fake. A determined Sasquatch hunter, Rene Dahinden of British Columbia, Canada, stepped in and took the filmstrip to Moscow to be examined by Russian researchers. Russian hominologists studied the movie in depth and found it to be authentic. As this now means Bigfoot may be real, the implications are momentous. This is the inside story of the Patterson film,warts and all, as viewed from an objective outside observer with proper credentials for decoding the facts. The story being fact not fiction concerns not only Americans and Russians but also every human being on Earth for it pertains to the origin of mankind. Dmitri Bayanov is considered to be Russia's greatest Bigfoot expert. He is a founding member of the International Society of Cryptozoology, having served on its board for 10 years. He has been engaged in hominid research since 1964 and has been chairman of the Hominoid Research Seminar at the Darwin Museum since 1975. His previous book is In the Footsteps of the Russian Snowman. **Searching for Sasquatch** B. Regal, 2011-04-11 The first academic study of this subject is an entertaining look at the search for Sasquatch which considers not just the nature of monsters and monster hunting in the late 20th century but the more important relationship between the professional scientists and amateur naturalists who hunt them and their place in the history of science. Bigfoot! Loren Coleman, 2009-11-24 For years scientists and researchers have studied, speculated about, and searched for an enigmatic creature that is legendary in the annals of American folklore. Now learn the truth about BIGFOOT. In this fascinating and comprehensive look at the fact, fiction, and fable of the North American Sasquatch, award-winning author Loren Coleman takes readers on a journey into America's biggest mystery: could an unrecognized ape be living in our midst? Drawing on over forty years of investigations, interviews, and fieldwork on these incredible beasts, Coleman explores the modern debates about these powerful ape-like creatures: why they have remained a mystery for so long and what we can learn about ourselves from these animals, our nearest cousins. From reports of Bigfoot's existence found in ancient Native American traditions to the controversial Patterson-Gimlin film of a Bigfoot in the wild to today's Internet sites that record the sightings almost as soon as they occur, Coleman uncovers the past, explains the present, and considers the future of one of the greatest unsolved

mysteries in the natural world *Bigfoot Film Journal* Christopher L. Murphy, 2009-03-25 *Bigfoot Film Journal* provides a detailed account and analysis of the circumstances and aftermath of one of the most controversial motion picture films in world history the Patterson Gimlin film In October 1967 Roger Patterson and Robert Gimlin filmed what many people believe was an actual sasquatch or bigfoot on a shore of Bluff Creek in Northern California The one minute film they took of the creature has been vigorously debated for over 40 years and it continues to reside in the annals of the unexplained The creature filmed cannot be proven to be either an actual primate of some sort or a fabrication Much has been written about the film in the past but the details of the filming and its aftermath have not been thoroughly researched and subjected to in depth critical analysis With the assistance and cooperation of Robert Gimlin and several major sasquatch bigfoot researchers the author has methodically detailed the fascinating story of the filming and the subsequent events Many little known or indeed previously unknown facts are presented that dismiss or at the very least challenge current beliefs and understandings For those interested in the bigfoot sasquatch issue here is the behind the scene account of what has become to many people the most compelling evidence of the creature s existence **Cryptozoology A To Z** Loren Coleman, Jerome

Clark, 1999-08-05 Contains two hundred entries that profile unusual beasts new animal finds and the explorers and scientists who search for them **Sasquatch: Legend Meets Science** Jeff Meldrum, 2006-09-19 In this landmark work on a subject too often dismissed as paranormal or disreputable Jeffrey Meldrum gives us the first book on sasquatch to be written by a scientist with impeccable academic credentials an objective look at the facts in a field mined with hoaxes and sensationalism Meldrum reports on the work of a team of experts from a wide variety of fields who were assembled to examine the evidence for a large yet undiscovered North American primate He reviews the long history of this mystery which long predates the bigfoot flap of the late fifties and explains all the scientific pros and cons in a clear and accessible style amplified by over 150 illustrations Anyone who has pondered the mysteries of human evolution will be fascinated and eager to join Dr Meldrum in drawing their own conclusion **Encyclopedia of Cryptozoology** Michael Newton, 2016-10-05 On every continent and in every nation animals unrecognized by modern science are reported on a daily basis People passionately pursue these creatures the name given to their field of study is cryptozoology Coined in the 1950s the term literally means the science of hidden animals When the International Society of Cryptozoology ISC was formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and

hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology **Raincoast Sasquatch** J. Eberhart,2002 Offers an A Z guide to animals that have yet to be officially recognized in science discussing where these animals live and why they remain a mystery **Cryptozoology** Mark Bessire,2006 Edited by Marc Bessire Raechell Smith Text by Loren Coleman Loring Danforth Dave Filipi Sean Foley Chris Thompson Nato Thompson *North America's Great Ape, the Sasquatch* John Albert Bindernagel,1998 America Moves West Robert E.
