Amphibians And Reptiles Of Montana Bryce A Maxell:

Amphibians and Reptiles of Montana J. Kirwin Werner, 2004 Although reptiles and amphibians are different classes of vertebrates they have long been studied together in the field of herpetology This guide provides an account of the herpetology of Montana first providing descriptions of herpetofauna biology habitats in Montana field observation and conservation and management then moving onto species accounts of 36 salamanders frogs toads turtles lizards and snakes occurring in the western state Including numerous color photographs the species accounts provide information on morphology taxonomy and distribution habitat and behavior and reproduction and development Also provided are a simplified key to aid identification a glossary and appendices detailing reproductive features and other information Annotation 2004 Book News Inc Portland OR booknews com

A Field Guide to Western Reptiles and Amphibians, 2003 Publisher Description

Beaverhead-Deerlodge National Forest (N.F.), Revised Land and Resource Management Plan, 2005 Nez Perce National Forest (N.F.), Designated Routes and Areas for Motor Vehicle Use, 2009

Kootenai National Forest (N.F.), West Troy Project, 2004 **Flathead National Forest (N.F.), West Side Reservoir Post-Fire Project, Flathead County**, 2004 **Charles M. Russell National Wildlife Refuge (N.W.R.), UL Bend National Wildlife Refuge (N.W.R.), Comprehensive Conservation Plan**, 2012 *Beaverhead-Deerlodge National Forest (N.F.), Basin Creek Hazardous Fuels Reduction Project*, 2004 *Montana Outdoors*, 2013 **North American**

Amphibians David M. Green, Linda A. Weir, Gary S. Casper, Michael J. Lannoo, 2014-02-28 The frogs toads salamanders and newts that inhabit North America numbering nearly 300 species represent immense variation in form habitat distribution and ecology This volume discusses the diversity of these animals in relation to the historical geography of the North American continent and portrays all of the formally recognized amphibian species to be found in the United States and Canada within a geographical context Each species is presented with a color photograph an account of its range habitat and conservation status and an up to date full color range map that depicts its known occurrences in relation to the topography of the landscape This volume reflects the enormous growth in interest about amphibians and increased intensity of scientific research into their biology and distribution that has occurred during the past two decades Bulletin of the Maryland Herpetological Society Maryland Herpetological Society, 2002 *Catalogue of American Amphibians and Reptiles* William

John Riemer, 1963 *Searching for Paradise* Douglas E. Booth, 2002 The signs of economic change loom large in the mountain West as shuttered mines and lumber mills are overshadowed by luxurious homes sprouting on valley bottoms and ridge lines This perceptive book explains these changes assesses their effects on the natural environment and gauges the reactions of local communities Drawing on concepts from economics environmental ethics and conservation biology Booth suggests that the ultimate solution lies in re directing population growth away from rural areas to reinvigorated and environmentally attractive ecological cities and to increase the density of development within rural areas themselves

Policymakers activists and local citizens concerned with rural sprawl will find this book an invaluable resource Visit our website for sample chapters **Catalogue of American Amphibians and Reptiles** American Society of Ichthyologists and Herpetologists. Herpetological Catalogue Committee,1963 **Montana Amphibian and Reptile Status Assessment, Literature Review, and Conservation Plan** Bryce Alan Maxell,Paul Hendricks,M.T. Gates,Susan Lenard,Kristi DuBois,Ann Carlson,Lynda Saul,Gayle Sitter,Stephen Corn,Montana Natural Heritage Program,Montana. Department of Fish, Wildlife, and Parks,United States. Forest Service. Northern Region,Montana. Department of Environmental Quality,United States. Bureau of Land Management. Montana State Office,Northern Rocky Mountain Science Center,2009 This document summarizes a great deal of information on the distribution status and biology of amphibians and reptiles known or thought to potentially inhabit Montana and is intended to become a dynamic living document that can be updated on a regular basis from research conducted in Montana or elsewhere The document will be posted on the Montana Natural Heritage Programs website at <http://nhp.nris.state.mt.us/reports.asp> as well as Montana Fish Wildlife and Parks Comprehensive Fish and Wildlife Conservation Strategy website at <http://fwp.mt.gov/wildthings/cfwcs/swg/planning.html> The document begins with taxonomic checklists for amphibians and reptiles that 1 have been documented as native species 2 are potentially present as native species 3 have been documented as exotic species successfully reproducing in the state 4 have been documented as successfully reproducing in the state but for which there is uncertainty about their status as native or exotic species and 5 have been documented in the state but for which there is no evidence of successful reproduction Presence and status ranks for amphibians and reptiles are then summarized for various land management regions in Montana and background information is provided as to why species were assigned these ranks and what the associated management implications are for each state federal or tribal agency Status ranks are described for Global Ranks G ranks assigned to species by NatureServe and State Ranks S ranks assigned to species by the Montana Natural Heritage Program because they are often used by federal and state agencies when they are developing their own special status ranks for species they will give special protections or considerations in land use planning Status ranks and summaries of distribution and or site occupancy rates from recent amphibian inventory surveys are provided for 1 Region 1 National Forests 2 Bureau of Land Management Field Offices 3 tribal reservations 4 Fish Wildlife and Parks Regions and 5 National Wildlife Refuges or refuge complexes General habitat associations are then summarized in tables listing major habitat types and all of the amphibian and reptile species that are typically found in these habitats Laws and regulations applicable to Montanas amphibians and reptiles are then summarized including federal laws and regulations tribal regulations portions of Montana Code Annotated relevant to nongame and endangered species and portions of Montana Code Annotated relevant to importation introduction and translocation of wildlife A review of literature relevant to conservation of amphibians and reptiles includes sections on 1 ecological function and importance of amphibians and reptiles 2 amphibian and reptile biology and disturbance regimes

relevant to management 3 risk factors relevant to the viability of amphibian and reptile populations including a global amphibian declines b timber harvest c grazing d fire and fire management activities e nonindigenous species and their management f road and trail development and on and off road vehicle use g development and management of recreational facilities and water impoundments h harvest and commerce and i habitat fragmentation and metapopulation impacts This review is currently somewhat biased toward amphibians both because of the much higher recent concern over the status of amphibians and because this literature review drew from previous efforts focused on amphibians Accounts for individual species then summarize what is known about the species distribution taxonomy maximum documented elevation habitat use and natural history and conservation status Sections on identification of various life history stages and priority research and management issues are also included Finally an attempt was made to compile a complete bibliography of published and gray literature for each species in order to provide everyone easy access to this information These accounts are intended to be updated on a regular basis in order to provide everyone access to the latest information A contact list for members of the Montana Amphibian and Reptile Working Group is included in order to promote communication between agency biologists resource managers students researchers and anyone interested in the conservation of amphibians and reptiles in Montana An overview of the statewide inventory and monitoring program for amphibians and reptiles provides background information on the sampling schemes used methods used for surveys and the survey forms used for a variety of amphibian inventory work Watershed summaries for the lentic breeding amphibian and aquatic reptile surveys complete the current version of this report in order to provide resource managers easy access to this information Georeferenced site photos associated with this inventory work have been posted on the Montana Natural Heritage Programs TRACKER website which can be accessed at <http://mtnhp.org> It is recommended that users of this document first use the tables at the beginning of the document to identify management status likelihood of a species presence in the area of interest and the complement of species that are typically found in each general habitat type Users should then examine individual species accounts in order gain a more thorough understanding of a species distribution status resource needs factors that may pose a threat to population viability and management actions that may mitigate these threats Finally users can review results of field surveys contained in individual watershed reports or see up to date distribution information for each species on the Montana Natural Heritage TRACKER website at <http://mtnhp.org>

Effects of Recreation on Rocky Mountain Wildlife, 1999 **State-wide Assessment of Status, Predicted Distribution, and Landscape-level Habitat Suitability of Amphibians and Reptiles in Montana** Bryce Alan Maxell, 2009 State wide assessment of status predicted distribution and landscape level habitat suitability of amphibians and reptiles in Montana **The Zoological Record**, 2003 [Amphibian, Reptile, and Bat Surveys on and Around the Dillon Field Office of the Bureau of Land Management](#) Bryce Alan Maxell, 2017 **Management of Montana's Amphibians** Bryce Alan Maxell, United States.
