It celebrates the charm of children's literature and its role in literacy development as well as the appeal of information and communications technology (ICT) to students and its capacity to enrich students' learning and enjoyment of literary texts. The authors outline the ways in which children's literature is developing new dimensions for example. The re-publication of children's books on CD ROM and the world wide web. Web resources for working with literary texts including e-mail discussion groups. Children's participation in the collaborative construction of online narratives. The book provides practical guidance for teachers who are inexperienced with ICT.
