*Cooking for Geeks* Jeff Potter, 2010-07-20

Are you the innovative type, the cook who marches to a different drummer used to expressing your creativity instead of just following recipes? Are you interested in the science behind what happens to food while it's cooking? Do you want to learn what makes a recipe work so you can improvise and create your own unique dish? More than just a cookbook, *Cooking for Geeks* applies your curiosity to discovery, inspiration and invention in the kitchen. Why is medium rare steak so popular? Why do we bake some things at 350 F/175 C and others at 375 F/190 C? And how quickly does a pizza cook if we overclock an oven to 1,000 F/540 C? Author and cooking geek Jeff Potter provides the answers and offers a unique take on recipes from the sweet to the mean: chocolate chip cookie to the savory duck confit, sugo. This book is an excellent and intriguing resource for anyone who wants to experiment with cooking, even if you don't consider yourself a geek. Initialize your kitchen and calibrate your tools. Learn about the important reactions in cooking such as protein denaturation, Maillard reactions and caramelization and how they impact the foods we cook. Play with your food using hydrocolloids and sous vide cooking. Gain firsthand insights from interviews with researchers, food scientists, knife experts, chefs, writers and more, including author Harold McGee, TV personality Adam Savage, chemist Herv This and xkcd. My own session with the book made me feel a lot more confident in my cooking. Monica Racic, *The New Yorker* I LOVE this book. It's inspiring, invigorating and damned fun to spend time inside the mind of a big picture cooking. I'm Hungry! Adam Savage, co-host of Discovery Channel's *MythBusters* In his enchanting, funny and informative book, *Cooking for Geeks*, O'Reilly's Jeff Potter tells us why things work in the kitchen and why they don't. Barbara Hanson, *New York Daily News*

**Good Food** P. C. B. Newington, 1947

Good Food came into being during the period I was interned/sic in Changi Criminal Prison and Sime Road Camp, Singapore, by the Japanese from February 1942 up to date of our release in August 1945. It is an extraordinary thing how one's thoughts turn to food when one is starving. Our food had steadily been decreased until our staple dish in May 1945 was 4 ozs of rice a day. I started in the Changi days by writing down in a note book all the recipes that I could remember and

when I was transferred to Sime Road Camp I started a Gourmets Club which was called Good Food The Club would meet on the embankment outside my hut once a week and for an hour food was discussed as follows Preface **Good**
