gaps and the ways that power relations create differentiated access to agricultural and livestock technologies and services. Many of these technologies and services such as improved feed options, grass-legume associations, silvo-pastoral systems, improved animal genetics, health and welfare, grazing management and associated water and soil health and manure management have the potential to improve livelihoods, sustainability, food security and generational transfer dynamics. Their adoption contributes to mitigating many of the impacts the livestock sector has on the environment through, for example, reducing greenhouse gas emissions and deforestation, increasing biodiversity, restoration and land sparing. Likewise, their adoption helps producers adapt to climate change.

Blue Sky, Blue Water Sneha Gautam, Suneel Kumar Joshi, Balram Ambade, 2025-12-19. Blue Sky Blue Water is a timely and comprehensive resource that explores the dynamic intersection of air pollution, climate resilience and water governance in the 21st century. This scholarly book brings together cutting-edge research, case studies and innovative strategies aimed at promoting environmental sustainability and public health. Spanning 18 chapters, it offers both conceptual and real-world perspectives across diverse regions and scientific disciplines. Key themes covered in this volume include an in-depth analysis of air pollution's health effects, microplastic risks, climate extremes and advanced wastewater treatment techniques such as nanotechnology and blockchain-based governance. This book also highlights the value of traditional knowledge and community-based water conservation, bridging science with practice. Readers will benefit from multidisciplinary insights and practical recommendations for sustainable policy-making and environmental stewardship. This book is an essential resource for researchers, environmental scientists, policymakers, urban planners and students of environmental studies and public health. Its broad thematic coverage and global relevance make it suitable for academic institutions, government agencies and non-governmental organizations focused on creating a sustainable and equitable future.

Social Innovations in Urban Sanitation in India Shubhagato Dasgupta, Kaustuv Kanti Bandyopadhyay, Anju Dwivedi, Sumona Das Gupta, Ms Bharti, 2023-04-25. This book discusses effective social innovation strategies facilitated by civil society organisations (CSOs) to tackle India's significant urban sanitation challenge. It presents the contours of an ecosystem that includes citizen participation and strengthening community-managed systems for improved sanitation and public health. The book analyses case studies of effective sanitation programmes as well as experiments with innovative ideas in different regional contexts by CSOs to meet the contextual needs of the community and to ensure access to safe sanitation, especially among the urban poor. It highlights the challenges and the need for active participation of communities for change in behaviour, increasing institutional capacities of municipalities for standardising and scaling up strategies which work. The authors highlight the need for designing low-cost solutions, organising informal sanitation workers serving marginalised communities and building effective alliances between communities and institutions to influence public policy. Rich in empirical data, this book will be useful for scholars and researchers of urban studies, public policy, governance.
