New York City     *Cert Basic Training Instructor's Guide* Government Publishing Office, 2017-11-15 FEMA's Community Emergency Response Team CERT Basic Training Instructor Guide is a critical program in the effort to engage everyone in America in making their communities safer more prepared and more resilient when incidents occur. Community based preparedness planning allows you and others interested from your community to prepare for and respond to anticipated disruptions and potential hazards following a disaster. As individuals we can prepare our homes and families to cope during that critical period. Through pre event planning neighborhoods and worksites can also work together to help reduce injuries loss of lives and property damage. Neighborhood preparedness will enhance the ability of individuals and neighborhoods to reduce their emergency needs and to manage their existing resources until professional assistance becomes available. The purpose of the CERT Basic Training is to provide you and others in your community who complete this course with the basic skills that they will need to respond to their community's immediate needs in the aftermath of a disaster when emergency services are not immediately available. This course will be beneficial to individuals who desire the skills and knowledge required to prepare for and respond to a disaster. Instructors for these community courses usually range from skilled fire and rescue instructors that have completed the CERT Train the Trainer course and are knowledgeable about the CERT model different types of hazards that present greatest risks for communities local building structures that may present greatest hazard in disaster events community's emergency operation plans and licensed Paramedics or Emergency Medical Technicians and nurses for providing hands on knowledge relating to disaster medical operations. **CERT Basic Training** Fema, 2020-03-03 Basic training manual for a Community Emergency Response Team or anyone interested in preparing for a disaster. A free PDF version is available from ready.gov. A free copy can be ordered. As of 2020 this is the newest edition. Book contains the FEMA mandated self study needed to become a CERT team member with useful information on how to respond to emergencies. Pages are greyscale August 2019     [Natural Disaster Risk Management](#) Ulrich Ranke, 2015-09-18 This textbook provides a thorough introduction to natural disaster risk management. Many aspects of disaster risk management such as those involved in earthquakes, volcanic eruptions, floods, avalanches and mudslides call for similar prevention and preparedness instruments, management concepts and countermeasures. This textbook assumes the viewpoint of a regional disaster risk manager who is responsible for a certain area and for making the lives of the people who

live there safer regardless of the type of natural disaster that may occur. The same holds true for boosting preparedness and awareness in the population at risk. The book includes numerous examples of hazard mitigation concepts and techniques as well as ways of intensively involving the local population in prevention schemes at an early stage. Furthermore, it provides an in-depth examination of the function of risk communication both as an instrument for disseminating official information and as a function of public media. In closing a chapter on risk splitting offers insights into insurance based models for risk financing. This comprehensive book is a must read for all students, researchers and practitioners dealing with natural disaster risk management.

About the CERT Basic Training: If available emergency services personnel are the best trained and equipped to handle emergencies. Following a catastrophic disaster, however, you and your community may be isolated for an extended period for a myriad of reasons including the size of the area affected, inoperable communications systems or unpassable roads. CERT Basic Training prepares you to help yourself and help others in the event of a catastrophic disaster. Because emergency services personnel will not be able to help everyone immediately, you can make a difference by using your CERT training to save lives and protect property. This training covers basic skills that are important to know in a disaster when emergency services are not available. With training and practice and by working as a team, you will be able to protect yourself and maximize your capability to help for the greatest number of people after a disaster.
