Batterers Intervention Curriculum Guide:

Handbook of Domestic Violence Intervention Strategies Albert R. Roberts, 2002 Public awareness regarding the life threatening nature and intense traumatic impact of domestic violence has substantially increased in the past decade. At the same time dramatic changes have taken place regarding criminal justice and social work policies and practices applied to domestic violence intervention. And while the prevalence of domestic violence has declined slightly, national estimates still indicate that every year approximately eight million women are abused, battered, stalked or killed by their husbands, boyfriends and other intimate partners. Featuring cutting edge research and expert intervention strategies, the *Handbook of Domestic Violence Intervention Strategies: Policies, Programs and Legal Remedies* is designed to prepare professionals to swiftly and compassionately meet the multiple needs of women and children who have suffered from domestic violence. This original and indispensable volume focuses on the numerous advances in legal remedies, program developments, treatment protocols and multidisciplinary perspectives. It is a comprehensive guide to the latest research, public policies and legal and criminal justice responses covering federal and state legislation as well as trends in police and court responses to domestic violence. This is the first book to include court based technology developments and new research related to the duration and intensity of woman battering. Highlighting actual cases and promising programs, the handbook also addresses important social work issues including risk assessment protocols, a new five level continuum of woman battering intervention methods and treatment models. The book also examines the myriad legal issues and health problems facing the most neglected and vulnerable battered women. Written by expert practitioners and leading scholars in the field, the book's 23 chapters provide rich insights into the complexities and challenges of addressing domestic violence. This timely and definitive handbook is recommended for students, clinicians, policy makers and researchers in the fields of social work, victim services, criminal justice, hospital administration, mental health, counseling, public health, pastoral counseling, law enforcement. In fact, this volume is a critical resource for all helping professionals who are assisting abused women in escaping and remaining free from violent relationships.

Yorke, 2014-06-27 The goal of any batterer intervention program is to stop violent behaviors, but just as important is the transformation of the participant's thoughts, feelings and behaviors in order to eliminate all forms of abuse in their interpersonal relationships. Utilizing a strengths based, cognitive behavioral and solution focused approach, this trauma informed 52 week batterer intervention curriculum and program design addresses mindfulness, attachment issues and when used as designed, the facilitator will be able to see higher retention rates and identifiable changes in participants' thoughts, feelings and behaviors. Some of the sessions are packed with activity and discussion while others are designed to stimulate

deeper introspection This design helps in keeping the participant s interest and often they don t even realize that two hours has elapsed Ultimately it is anticipated that the participant will develop and demonstrate empathy for those they have victimized This material and program design has been praised by participants for what they have learned by their family members for the positive changes in behaviors and responses to conflict and by program facilitators who have found the process stimulating and rewarding This Facilitator Guide is designed to accompany Another Way Choosing to Change Participant Handbook Discounts are available for multiple purchases contact www.yorkeconsulting.com for more information
