Basic Security Guard Training Manual:

Armed Security Guard Training Manual Bernard Martinage, 2014-06-01 All states have different regulations laws licensing and requirements for security guards. This is especially true regarding the use of deadly force power of detain arrest and many other legal aspects of being a security guard. It is the responsibility of the school instructor to know the laws relating to security guard activities for the State County or City in which they train and for which they train. These laws and regulations are easy to find and free to print because they are of the public domain. While all states may have different laws almost all states include in their armed security guard training and educational requirements firearm knowledge and technical skills so the armed security guard can effectively use a firearm in the defense of self and others. This Armed Security Guard Training Manual was developed to meet the most stringent standard. It represents 40 hours of study materials. It also includes 10 hours legal section that discusses Weapons and Firearms and the use of deadly force. These 10 hours of the curriculum are modeled after Florida laws which regulates heavily security guard activities. This section constitutes an excellent moral guideline to work from. BUT it is your responsibility to research and teach the law of your state county city as well as ensure that you take the steps you need to meet your state's licensing requirements if there are any. Last but not least this kit as you see it is what we use every day to train our pupils at Safe N Secure.

Security guard training manual (Vic.), 1992 **Security Guard Training Manual** Bernard M. Martinage, 2014-06 This manual was developed to meet the most stringent standard. It represents over 24 60 hours of study materials. It also includes a legal section that discusses uniform requirements levels of crime from simple assault to trespassing to felonies to the use of deadly force. This manual is used every day in over 20 state licensed training centers to train pupils around the US.

Fundamentals C. R. Jahn, 2017-01-02 A substantial portion of this book was originally commissioned as a training manual for a local security firm. Very good practical solid information here that can benefit all entry level security officers supervisors and managers as well as clients considering hiring a uniformed guard patrol service. The manual is presented in its complete form with additional material. This book will describe the various types of domestic entry level security employment available as well as different types of employer posts and duties. You will be given tips on ways to make your job safer and easier as well as hard earned advice on what types of job to avoid and why. I have over 30 years of experience working with a number of security and investigations firms in three states. I have personally worked dozens of contracts under a variety of circumstances and have observed a lot. These observations as well as advice for anyone considering choosing a security firm to work for have been added.
