

CHAPTER 2

CHOOSING A MACHINE

This chapter is designed to help those that are about to buy a lathe, whether it is new or used. The prospective purchaser is advised to read further into this book before going ahead because while here are detailed the things to look for and look out for, all of the equipment referred to is dealt with in depth in the chapters to come.

There are three main points to be considered when buying a lathe. What will it be used for? How much does it cost and how much space is there in the workshop for it?

Size is an important consideration, and the machine must be of a suitable size to allow it to be used with ease when it is installed. It is always a good thing to have a lathe that will be capable of being

For someone with limited space a variety of small lathes are available. This photograph shows a Proxxon which is an ideal example. It is quite capable of doing very good work and at the same time is small enough to be put away in a cupboard or even a deep drawer when not in use. It has an electronic speed control system and it is possible to purchase a whole range of accessories in order to increase the versatility of the machine.

Photograph courtesy of Proxxon Tools.
