Basil Of Csarea Transformation Of The Classical Heritage:

Basil of Caesarea Philip Rousseau,1998-02-11 In this new portrait of Basil of Caesarea which will certainly win acceptance as the standard work in English erudition does not blunt perceptiveness we are brought close to the heart of a man who struggled to reconcile the high calling of his faith with the appalling demands that a fast changing world imposed on its leaders This book takes another long stride towards what all Rousseau s earlier work has aimed at an undogmatic and sympathetic understanding of the fourth century Church and the presentation of its great spiritual leaders to new often unsuspecting audiences Garth Fowden National Hellenic Research Foundation *The Oxford Handbook of Early Christian Studies* Susan Ashbrook Harvey,David G. Hunter,2008-09-04 Provides an introduction to the academic study of early Christianity c 100 600 AD and examines the vast geographical area impacted by the early church in Western and Eastern late antiquity from publisher description **Passion and Compassion in Early Christianity** Susan Wessel,2016-06-09 This book examines how early Christians cultivated affective compassion as a virtue in a Roman world that valued emotional tranquillity **Re-Reading Gregory of Nazianzus** Christoper A. series of lesser known texts in order to study the impact of specific literary and social contexts on late ancient educational views and practices By moving attention from statements to strategies this volume wishes to enrich our understanding of the creative engagement with classical ideals of education The multi faceted approach adopted here illuminates the close connection between specific educational purposes on the one hand and the possibilities and limitations offered by specific genres and contexts on the other Instead of seeing attitudes towards education in late antique texts as applications of theoretical positions it reads them as complex negotiations between authorial intent the limitations of genre and the context of performance

Self-Portrait in Three Colors Bradley K. Storin, 2019-09-03 A seminal figure in late antique Christianity and Christian orthodoxy Saint Gregory of Nazianzus published a collection of more than 240 letters Whereas these letters have often been cast aside as readers turn to his theological orations or autobiographical poetry for insight into his life thought and times *Self Portrait in Three Colors* focuses squarely on them building a provocative case that the finalized collection constitutes not an epistolary archive but an autobiography in epistolary form a single text composed to secure his status among provincial contemporaries and later generations Shedding light on late ancient letter writing fourth century Christian intelligentsia Christianity and classical culture and the Christianization of Roman society these letters offer a fascinating and unique view of Gregory's life engagement with literary culture and leadership in the church As a single unit this autobiographical epistolary collection proved a powerful tool in Gregory's attempts to govern the contours of his authorial image as well as his provincial and ecclesiastical legacy

The Text of Matthew in the Writings of Basil of Caesarea Jean-François Racine, 2004 The series seeks to contribute to the understanding of the variation and transmission of the New Testament by analyzing quotations of and allusions to passages of it in the work of Christian writers of Late Antiquity many of which can be more precisely located both temporally and geographically than the earliest New Testament manuscripts Racine Jesuit School of Theology at Berkeley finds Basil ca 330-379 a valuable witness in that regard because he quotes abundantly and at length apparently coping from a written text A similar study has been conducted on his brother Gregory of Nyssa ca 335-394 so the combination adds much to the knowledge of the New Testament text in use in Cappadocia during the fourth century The study is slightly revised from his October 2000 Ph D dissertation for the University of St Michael's College Distributed by Aspen Annotation 2004 Book News Inc Portland OR booknews.com

Asceticism and Its Critics Oliver Freiberger, 2006-10-26 Scholars of religion have always been fascinated by asceticism Scholars have often been overlooked however that in the history of religions ascetic

beliefs and practices have also been strongly criticised by followers of the same religious tradition as well as by outsiders The respective sources provide sufficient evidence of such critical strands but surprisingly as yet no attempt has been made to analyse this criticism of asceticism systematically This book is a first attempt of filling this gap Ten studies present cases from both Asian and European traditions classical and medieval Hinduism early and contemporary Buddhism in South and East Asia The Syriac vita tradition of Ephrem the Syrian Joseph P. Moralia et Ascetica Armeniaca, 2021 The twenty three discourses presented in this volume have a long textual history that ascribes them to St Gregory the Illuminator of Armenia d 328 a prevalent view that lasted through the nineteenth century Armenian scholarship through the last century has tended to ascribe them to St Mashtots the inventor of the Armenian alphabet d 440 In his critical introduction to this first ever English translation of the discourses Terian presents them as an ascetic text by an anonymous abbot writing near the end of the sixth century The very title in Armenian Ya axapatum a k literally Oft Repeated Discourses further validates their ascetic environment where they were repeatedly related to novices For want of answers to introductory questions regarding authorship and date and because of the pervasive grammatical difficulties of the text the document has remained largely unknown in scholarship The discourses include many of the Eastern Fathers favorite theological themes They are heavily punctuated with biblical quotations and laced with recurring biblical images and phraseology the doctrinal and functional centrality of the Scriptures is emphasized throughout They are replete with traditional Christian moral teachings that have acquired elements of moral philosophy transmitted through Late Antiquity Echoes of St Basil s thought are heard in several of them and some evidence of the author s dependence on the Armenian version of the saint s Rules translated around the turn of the sixth century is apparent On the whole they show how Christians were driven by the Johannine love command and the Pauline Spirit guided practice of virtuous living ever maturing in the ethos of an in group solidarity culminating in monasticism
