EYE CONTACT - the Mysterious Death in 2000 in Maine of Cassidy

Bortner and the Wrongful Conviction of Chad Evans in New Hampshire Morrison Bonpasse,2011-08-17 Chad Emery Evans was wrongfully convicted in December 2001 in New Hampshire of the murder of Cassidy Bortner the 21 month old daughter of his girlfriend Amanda Bortner The causes of her death and her injuries are mysterious and disputed but Chad was convicted of second degree murder On June 2 2000 Chad met Amanda and their relationship grew rapidly By early July Amanda and Chad were living together Chad s three year old son Kyle also lived in the home several days a week through shared custody with Chad s former wife On the morning of November 9 2000 Amanda took Cassidy to the Kittery Maine home of her sister Jennifer Bortner and her sister s boyfriend Jefferey Marshall for babysitting for the day Cassidy had a new bruise on one eye due to an accident the previous night when Chad was giving Kyle some batting practice with a brown plastic bat in Kyle s bedroom just before bedtime While wiffle balls were usually used for such fun the ball that Kyle hit into Cassidy s eye was a Tee ball The resulting bruise to Cassidy s left eye was the latest of a series of bruises which had been observed by many people during the fall of 2000 In a time of growing sensitivity to child abuse most of the responsible adults close to Cassidy chose to believe that the bruises and injuries were unfortunate accidents and that they didn t require medical care right away The life threatening severity of the injuries was not known or suspected by anyone Tragically those adults including Chad Evans were unaware that there was something very wrong with Cassidy because of the accidents or perhaps because of a chronic condition disease or toxin Chad Evans never spanked nor hit Cassidy Bortner He loved and cared for her Shortly after Noon on the 9th Jeff Marshall checked on Cassidy and recognized that she was in trouble and seemingly lifeless and he made several phone calls for help The EMT s and Kittery Police arrived quickly but Cassidy was dead when they arrived As the man living with Cassidy s mother Amanda Bortner Chad Evans was an initial suspect By the time of Chad s 7 10 p m interview with the police and within about seven hours of Cassidy s death the police were focused entirely on Chad and worked thereafter to build the case against him At his December 2001 trial Chad took his attorneys advice not to testify and his attorneys decided to call only one defense witness They called the nationally renowned forensic pathologist Dr Michael Baden as they thought his testimony was sufficient to establish the reasonable doubt needed for a not guilty verdict However their assessment was wrong and the jury found Chad guilty of most of the charges In November 2002 Amanda Bortner was tried and found guilty of two counts of child endangerment and sentenced to two years in jail In 2011 Chad Evans began his tenth year in the New Hampshire State Prison for crimes he didn t commit He passed a lie detector test given in July 2010 In September 2010 a report was discovered of a DNA test conducted by the Maine State police in

March 2001 The test on blood found underneath all ten of Cassidy Bortner's fingernails showed that the blood belonged to Cassidy. The DNA test on the substance on a paper towel found where Cassidy was sitting on the day she died showed saliva that belonged to a male. Prior to Chad's trial the existence of the blood was in a report available to his defense lawyers but it was not mentioned by anyone on either side at the trial. The DNA test and report was never disclosed to the defense. Also not disclosed was information about Cassidy's medical appointments in August and September 2000. The jury also did not know about a family gathering four days before Cassidy died where only one bruise was seen on her right cheek. *Eye Contact* tells the story of the wrongful convictions of Chad and Amanda and the campaign for exoneration. [Battered Women and Feminist Lawmaking](#) Elizabeth M. Schneider, 2008-10-01. Women's rights advocates in the United States have long argued that violence against women denies women equality and citizenship but it took a movement of feminist activists and lawyers beginning in the late 1960s to set about realizing this vision and transforming domestic violence from a private problem into a public harm. This important book examines the pathbreaking legal process that has brought the pervasiveness and severity of domestic violence to public attention and has led the United States Congress, the Supreme Court and the United Nations to address the problem. Elizabeth Schneider has played a pioneering role in this process. From an insider's perspective she explores how claims of rights for battered women have emerged from feminist activism and she assesses the possibilities and limitations of feminist legal advocacy to improve battered women's lives and transform law and culture. The book chronicles the struggle to incorporate feminist arguments into law particularly in cases of battered women who kill their assailants and battered women who are mothers. With a broad perspective on feminist lawmaking as a vehicle of social change Schneider examines subjects as wide ranging as criminal prosecution of batterers, the civil rights remedy of the Violence Against Women Act of 1994, the O J Simpson trials and a class on battered women and the law that she taught at Harvard Law School. Feminist lawmaking on woman abuse Schneider argues should reaffirm the historic vision of violence and gender equality that originally animated activist and legal work.
