The Battlecruiser HMS HOOD Bruce Taylor,2008-04-30 The battlecruiser HMS Hood is one of the great warships of history Unmatched for beauty unequalled for size for twenty years the Hood was the glory ship of the Royal Navy flying the flag across the world in the twilight years of the British Empire Here in words photos and colour illustrations is the story of her life her work and her people from keel laying on the Clyde in 1916 to destruction at the hands of the Bismarck in 1941 Among the eye-catching strengths of the book is a unique gallery of photos including stills from a recently discovered piece of colour footage of the ship plus a spectacular set of computer generated images of both the exterior and interior by the world's leading exponent of the art a man who worked with the film director James Cameron of Titanic fame A wealth of new information on Hood's structure and operation make it essential reading for the enthusiast modeller and historian alike Hugely successful from its first publication this is the third printing of the ultimate book on the ultimate ship of the pre-war era

**HMS Hood** Daniel Knowles,2019-07-15 For over twenty years the battlecruiser HMS Hood toured the world as the most iconic warship in the Royal Navy Unmatched in her beauty and charisma Hood is one of history's greatest warships During the twilight years of the British Empire the Hood toured the world showing the flag as a symbol of British power As the Royal Navy's show ship Hood came to command a special place in the hearts and minds of the British public Such was the regard for HMS Hood that her destruction in the Denmark Strait on the morning of 24 May 1941 by the German battleship Bismarck created dismay across the world Within minutes of entering battle the Mighty Hood as she was affectionately known was destroyed by a catastrophic explosion which had echoes of Jutland a quarter of a century earlier Out of a crew of 1 418 only 3 survived The sinking of HMS Hood was the single largest disaster ever sustained by the Royal Navy This book charts the life and death of this legendary battlecruiser in both peace and war from her early origins through the interwar years to her destruction

**The End of Glory** Bruce Taylor,2012-04-03 The career of the legendary British battlecruiser is vividly recounted from its commissioning to its tragic end in this naval history The HMS Hood was the glory of the Royal Navy In The End of Glory historian Bruce Taylor combines in depth research and thrilling narrative to tell its story For twenty years Hood symbolized the Royal Navy during the twilight years of the British Empire Yet in 1941 it was destroyed in seconds by the battleship Bismarck a catastrophe that shattered the morale the British public Through official documents as well as the personal accounts and reminiscences of more than 150 crewmen this volume offers a vivid portrait of this naval icon An insider's view of a warship in peace and war The End of Glory not only paints an intimate picture of everyday life but deals with controversial issues such as the Invergordon mutiny escapades ashore and afloat the Christmas mutiny of 1940 and the terrible conditions onboard in war This coverage based on so many original sources makes for a truly compelling story that neither historian enthusiast nor general reader will find easy to put down

British Battlecruisers of the Second World War Steve Backer,2013-07-04 The ShipCraft series provides in depth information about

building and modifying model kits of famous warship types Lavishly illustrated each book takes the modeller through a brief history of the subject class highlighting differences between sisterships and changes in their appearance over their careers This includes paint schemes and camouflage featuring colour profiles and highly detailed line drawings and scale plans The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing of the ships and provides hints on modifying and improving the basic kit This is followed by an extensive photographic survey of selected high quality models in a variety of scales and the book concludes with a section on research references books monographs large scale plans and relevant websites The latest in this series covers the three ships of this First World War type Hood Repulse and Renown which survived to fight in the Second Still the fastest capital ships in the world in 1939 their protection was not up to contemporary standards and two were famously lost in action Hood in an old fashioned gunnery duel but Repulse succumbed to the more modern threat of aerial attack The one modernised ship Renown survived an adventurous wartime career

**The Battle of the Denmark Strait** Daniel Knowles,2020-10-04 Dawn 24 May 1941 two groups of ships one British one German meet in the Denmark Strait Here two giants of maritime history HMS Hood and the Bismarck meet Within minutes of the battle beginning HMS Hood blows up with a catastrophic loss of life Out of a crew of 1 418 only three survive Coupled with this the Royal Navy s newest battleship is outfought While this is a cause of celebration for the Germans Bismarck has been wounded curtailing her Atlantic raiding sortie Despite the wealth of documentary information and photographic evidence available on the battle there continues to be controversy as to how the conflict was actually fought This book analyses the events of 24 May 1941 to both shed new light and provide clarifications on how the battle was fought the damage that different ships sustained and how it was that the pride of the Royal Navy was destroyed in such a catastrophic manner

King George V-Class Battleships Daniel Knowles,2022-04-08 Following the First World War the major naval powers entered into an agreement restricting the construction of capital ships and limiting the numbers that signatories were allowed to maintain so numerous ships were scrapped or disposed of and the majority of planned vessel were either cancelled whilst being built or never laid down By the late 1920s the Royal Navy s battle force comprised of the two Nelson class ships the battlecruisers Hood Renown and Repulse and Revenge and Queen Elizabeth class ships all designed before the First World War In 1928 the Royal Navy began planning a new class of battleships which was put on hold with the signing of the Treaty of London In 1935 realising its battle fleet was becoming dated as other nations laid down new classes of battleships the Royal Navy recommenced planning capital ships within treaty limitations The result was the King George V class battleships Regarded by some as the worst new generation battleships in the Second World War the King George V class were Britain s most modern battleships during the conflict and saw action in some of the most famous engagements from the sinking of the Bismarck in 1941 to the surrender of Japan in 1945 This book charts the story of the King George V class from its conception and design through to the operational history of the ships in the class
