Benjamin, 2015-11-27 Joseph Hooker November 13 1814 October 31 1879 was a career United States Army officer fought in the Mexican American War and was a major general in the Union Army during the Civil War Although he served throughout the war usually with distinction at places like Antietam and Atlanta Hooker is best remembered for his loss to General Robert E Lee at the Battle of Chancellorsville in 1863 After a clerical error in an early battle in the war he was known as Fighting Joe Hooker It was after firing Burnside in early 1863 that Lincoln put Fighting Joe Hooker in command of the Army of the Potomac writing him a famous letter informing him of his promotion But after Hooker lost at Chancellorsville correspondence between the

government and Hooker led to Hooker offering his resignation which Lincoln accepted just days before the Battle of Gettysburg. The correspondence that led to Lincoln relieving Hooker of command was preserved in The War of the Rebellion Official Records of the Union and Confederate Armies. In one of the Battles Leaders essays an official in the Army of Potomac's camp Charles Benjamin explained the appointment and removal of Hooker. This edition of Hooker's Appointment and Removal is specially formatted with pictures of important commanders and it also includes the correspondence that led to Lincoln relieving Hooker in the Official Records.

**Leadership Embodied, 2nd Edition** Joseph J Thomas, 2013-10-15

Leadership is a most demanding undertaking. How do some people make it seem so simple so natural and instinctive? In the age old debate as to whether leaders are born or made, Thomas contends that the answer is both. Great leaders throughout history were born with certain capabilities. Preparation honed those capabilities. Then that ability and preparation were combined with a will to lead. When circumstances demanded, the great leaders of history pulled these attributes together to create results that drove the course of history. While leaders are present in every aspect of human undertaking, we chose to illustrate each of the components of leadership through the most dramatic and demanding of all human undertakings: war and the preparations for war. Wartime leaders are leaders writ with a darker pen. Wartime challenges are because of the life and death nature of the affair, more monumental and exacting. In the selection of individuals to illustrate each point, we chose wartime leaders as well as those who guided their subordinates and organizations in preparation for combat. Further, we chose American leaders with a distinct and obvious bias towards the navy and Marine Corps. Multiple reasons led us to our approach for *Leadership Embodied*. First, a biography is perhaps the most effective method for imparting leadership lessons. Simple listings of prescriptive traits or descriptive qualities are patronizing and frequently boring. Second, our biographical examples are familiar to most or at least they should be. Finally, all of these historical selections have dramatically shaped today's institutions, practices, and customs within the naval services. These are not marginal figures with marginal influence. The individuals included and their respective leadership attributes should be required reading for any student of leadership. Each has a particular lesson for midshipmen on their journey to becoming a navy or Marine Corps officer. This book does not promise to be a panacea. There is no short cut. Leadership does not follow a prescribed path. We study examples to inspire us to become better, to be strong when it is easy to give in, and to know others have gone before us and faced insurmountable odds. Leadership, as an ill-defined social science, crosses boundaries with several disciplines including sociology, psychology, philosophy, and history. We have selected a method that combines the psychological profile of effective leaders and the historical context of the impact their leadership brought to organizations and events. Our hope for this book is that these case studies illustrate the basic elements in themselves, the very essence of leadership. It is through inherent talent, arduous preparation, and practical experience that we become capable leaders. The reader brings the first to the table; then we offer a small token in the second pursuit, and circumstances enable the third.
