architecture The Bauhaus and America Margret Kentgens-Craig, 1999 After the Bauhaus's closing in 1933 many of its protagonists moved to the United States where their acceptance had to be cultivated In this book Margret Kentgens-Craig shows that the fame of the Bauhaus in America was the result not only of the inherent qualities of its concepts and products but also of a unique congruence of cultural supply and demand of a consistent flow of information and of fine-tuned marketing Thus the history of the American reception of the Bauhaus in the 1920s and 1930s foreshadows the patterns of fame-making that became typical of the post-World War II art world BOOK JACKET *Bauhaus Effects in Art, Architecture, and Design* Kathleen James-Chakraborty, Sabine Kriebel, 2022 Bringing together an international team of scholars this book offers new perspectives on the impact that the Bauhaus and its teaching had on a wide range of artistic practices Three of the fields in which the Bauhaus generated immediately transformative effects were housing typography and photography Contributors go further to chart the surprising relation of the school to contemporary developments in hair styling and shop window display in unprecedented detail New scholarship has detailed the degree to which Bauhaus faculty and students set off around the world but it has seldom paid attention to its impact in communist East Germany or in countries like Ireland where no Bauhausler settled This wide-ranging collection makes clear that a century after its founding many new stories remain to be told about the influence of the twentieth century's most innovative arts institution The book will be of interest to scholars working in art history design history photography and architectural history *The New Architecture and the Bauhaus* Walter Gropius (Architect, Germany, United States), Staatliches Bauhaus (Weimar ; 1919-1925), Bauhaus Dream-house Katerina Rüedi, 2010 This original study brings critical social theory to bear on the ideas of architectural and design education at the Bauhaus tracing the spread and influence of these ideas worldwide Written for those in the fields of architectural and design education architectural history and critical pedagogy it is also for teachers and students in German art and cultural history **Archaeology of Modernism** Monika Markgraf, 2021-10-04 The Bauhaus Building in Dessau designed by Walter Gropius in 1926 represents a built manifesto of Bauhaus ideas and is one of modernism's most important buildings Together with the associated Masters Houses Meisterhäuser the Houses with Balcony Access Laubenganghäuser in Dessau and Bauhaus buildings in Weimar and Bernau it is included in UNESCO's World Heritage List The book focuses on strategies for preserving the Bauhaus Building It presents the building and its eventful history from its construction to its destruction rebuilding and restoration Using texts photographs and numerous blueprints the book provides a detailed exploration of specific aspects of the architecture such as the building's outer shell materials construction color scheme and surfaces and the long-term preservation concept for the site In doing so it proposes structural measures aimed at adapting the building to today's challenges and at conserving the building with its historic and artistic characteristics Archaeology of Modernism Preservation Bauhaus Dessau is the revised and expanded edition of Archaeology of Modernism Renovation Bauhaus Dessau which was published by JOVIS as Volume 23 of the EDITION BAUHAUS series in 2006 This new edition is
