**Teaching Innovation in Architecture and Building Engineering** David Bienvenido-Huertas, María Luisa de la Hoz-Torres, Antonio Jesús Aguilar Aguilera, 2024-06-19 This book presents contributions on teaching innovation in university architecture and building engineering studies. The authors explain how the construction sector demands that future architects and building engineers have the knowledge and skills that allow them to meet the decarbonization objectives established by international organizations and that this causes the level of knowledge to be higher. The contributors further discuss new technologies and the internationalization of studies presenting new challenges university studies must face. This heterogeneity is represented in the chapters that make up this book developed by researchers from different countries. The book is divided into three blocks: i) Active learning methodologies, ii) Innovative methodologies applied to learning process and iii) Traditional vs Advanced Techniques. The chapters of the book represent an advance in the current knowledge of teaching innovation techniques in university architecture and building engineering studies.

## **Financial Accounting, 12th Edition**

John Hoggett, John Medlin, Keryn Chalmers, Claire Beattie, Andreas Hellmann, Jodie Maxfield, 2024-02-12 A benchmark Financial Accounting text over the past 30 years. Hoggett's Financial Accounting has been refreshed in this twelfth edition. A must have for students who want to succeed in their unit and leave with a rich foundation of technical knowledge for their future study and accounting career. The text focuses on accounting from the perspective of a financial statement preparer. With two versions being published, Hoggett's Financial Accounting can be used for either the typical one semester course or Hoggett's Accounting with six additional introductory management accounting chapters can extend to two semesters. The eBook edition of Financial Accounting 12th Edition features a range of instructional media content designed to provide students with an interactive and engaging learning experience. This unique resource can also form the basis of a blended learning solution for lecturers.
