Federal immigration legislation. 2. Digest of immigration* United States. Immigration Commission (1907-1910),1911    **Federal Register** ,1999-06    **Preserving Privilege** Jewelle Taylor Gibbs,Teiahsha Bankhead,2001-03-30 Gibbs and Bankhead examine the history and current situation in California as it struggles to deal with the ethnic and racial change that will make it the first American state to have a non white majority in the first decade of the 21st century From shock and denial to bargaining to change the outcome they analyze the impact in California and what this may mean for the rest of the country They begin by tracing the major historical social economic and political events of the past 50 years that laid the foundation for the impetus of such ethnically and racially divisive initiatives as the efforts to strengthen anti crime measures remove illegal immigrants limit affirmative action measures and eliminate bilingual education Each of these ballot propositions is examined detailing the pro and con arguments of their advocates and opponents their major financial contributors campaign strategies ethnic voting patterns implications of implementation and their impact on people of color Gibbs and Bankhead then look at parallels from a national and international perspective They conclude with a discussion of the values that should guide public policy debates in a multiethnic multicultural society and they propose specific policy alternatives to address the issues of crime prevention and control illegal immigration affirmative action and bilingual education A thoughtful analysis that will be of value to concerned citizens as well as policy makers scholars and students of contemporary American issues

Committee on Energy and Natural Resources,2001    **The Integration of Immigrants into American Society** National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Committee on Population,Panel on the Integration of Immigrants into American Society,2016-04-17 The United States prides itself on being a nation of immigrants and the country has a long history of successfully absorbing people from across the globe The integration of immigrants and their children contributes to our economic vitality and our vibrant and ever changing culture We have offered opportunities to immigrants and their children to better themselves and to be fully incorporated into our society and in exchange immigrants have become Americans embracing an American identity and citizenship protecting our country through service in our military fostering technological innovation harvesting its crops and enriching everything from

the nation's cuisine to its universities music and art. Today the 41 million immigrants in the United States represent 13.1 percent of the U.S. population. The U.S. born children of immigrants, the second generation, represent another 37.1 million people or 12 percent of the population. Thus together the first and second generations account for one out of four members of the U.S. population. Whether they are successfully integrating is therefore a pressing and important question. Are new immigrants and their children being well integrated into American society within and across generations? Do current policies and practices facilitate their integration? How is American society being transformed by the millions of immigrants who have arrived in recent decades? To answer these questions this new report from the National Academies of Sciences, Engineering, and Medicine summarizes what we know about how immigrants and their descendants are integrating into American society in a range of areas such as education, occupations, health, and language. **Federal Immigration Law Reporter**, 1983

Each chapter features key terms, study questions, and resource lists, and the book meets many Council on Social Work Education Educational Policy and Accreditation Standards (EPAS) competencies. The book addresses the policy landscape affecting immigrant and refugee children in the United States and a final section examines current and future approaches to advocacy.
