It has many features to make creating a customized assessment a walk in the park for your students. (There are also examples of more advanced modules.) You can include rubrics, answer keys, and other helpful information. If you want a full-on test, you can download the test and the answer key and give it to students. Some online modules have a "module" or "course" that includes a series of tests, and some have a "course" that includes a series of tests and a final exam.
