Business Studies September 2014 Memorandum:

Indian Business Case Studies Volume VII Varsha Parab, Ramesh Mahadik, Diksha Tripathi, 2022-06-16 It has been decades since many business schools outside India adopted the case study methodology for teaching almost all branches of management studies. This trend has been seen in India too where top management institutes have implemented the case study based methodology as an important pedagogical tool in business education. The major issue in India however is a severe shortage of Indian case studies through which business schools can provide industry insights to students. This volume fills that gap. It has twenty Indian cases related to different aspects of business management. The cases cover some of the prominent disciplines of management like marketing, finance, human resource management, strategy management, operations management, accounting and mergers and acquisitions. These cases best serve the purpose of adoption of case methodology in classroom teaching or online lecture sessions for the faculty and students of business management.

Retirement in Japan and South Korea Masa Higo, Thomas R. Klassen, 2015-04-10 This book analyses reforms to retirement policies in Japan and South Korea especially in the context of rapid population ageing. A defining feature of the labour markets and workplaces in these two nations and the lives of workers and families is involuntary retirement at relatively young ages. The book explains past developments and recent reforms of retirement policies both in the two countries as well as in a cross national comparative manner. At the core of the book is an examination of the social, economic and political conflicts around retirement such as between younger and older workers, between employers and governments and between employers and workers. The policy recommendations offered apply not only to Japan and South Korea but also to other nations such as China. The volume is of value particularly for those interested in labour markets and workplaces, population ageing and contemporary East Asia, in addition to those studying retirement and pensions. Policymakers, business leaders, worker organizations, researchers and students will benefit from the insights about the past, present and future of retirement.
