Isamu Yamamoto,2016-09-06 In the second half of the twentieth century the failure of Enlightenment rationalism and the spiritual bankruptcy of Western materialism have opened the door for Eastern religions especially the nontheistic religions that promise enlightenment and peace of mind Any major bookstore today has copies of the I Ching the Tao Te Ching and books on Taoism Zen and other forms of Buddhism

This volume and the volume on Hinduism in this series together present a comprehensive overview of Eastern religions their views and their impact on contemporary North America This book includes A concise introduction to Eastern religions An overview of the movement s theology in their own words A biblical response Tips for witnessing effectively A bibliography with sources for further study A chart comparing the groups beliefs with biblical Christianity A glossary *The Illustrated Guide to World Religions* Michael David Coogan,1998 Graced with rich illustrations and written by a team of eminent scholars this book presents a wealth of information on faiths around the world Each chapter in this volume examines one of seven major world religions from Judaism to Christianity and from Islam to Buddhism *Bibliographie Internationale D'anthropologie Sociale Et Culturelle* ,1983 **The Cumulative Book Index** ,1983 A world list of books in the English language *Conversion in Late Antiquity: Christianity, Islam, and Beyond* Arietta Papaconstantinou,Daniel L. Schwartz,2016-03-03 The papers in this volume were presented at a Mellon Sawyer Seminar held at the University of Oxford in 2009 2010 which sought to investigate side by side the two important movements of conversion that frame late antiquity to Christianity at its start and to Islam at the other end Challenging the opposition between the two stereotypes of Islamic conversion as an intrinsically violent process and Christian conversion as a fundamentally spiritual one the papers seek to isolate the behaviours and circumstances that made conversion both such a common and such a contested phenomenon The spread of Buddhism in Asia in broadly the same period serves as an external comparator that was not caught in the net of the Abrahamic religions The volume is organised around several themes reflecting the concerns of the initial project with the articulation between norm and practice the role of authorities and institutions and the social and individual fluidity on the ground Debates discussions and the expression of norms and principles about conversion conversion are not rare in societies experiencing religious change and the first section of the book examines some of the main issues brought up by surviving sources This is followed by three sections examining different aspects of how those principles were or were not put into practice how conversion was handled by the state how it was continuously redefined by individual ambivalence and cultural fluidity and how it was enshrined through different forms of institutionalization Finally a topographical coda examines the effects of religious change on the iconic holy city of Jerusalem **The Crisis of Homosexuality** J. Beyond Tranquility Charles Genoud,2020 Essays meditations and poetry on Buddhism From the introduction The meditations described in this book are based on the Theravada Buddhist tradition mainly as taught in Burma and on the Tibetan tradition with a few remarks taken from Zen These approaches complement each other Vipassana a characteristic Theravada practice following the Satipatthana Sutta is very careful to include in meditation all aspects of life such as the body feelings thoughts emotions and mental states negative as well as positive The Tibetan tradition analyzes thoughts and emotions in great depth to discover the elusive nature of consciousness and of the world Zen approaches meditation in a comprehensive manner as it integrates simple movements and daily activities Because empathy must supplement wisdom in order to ensure responsible behavior in the world a meditation on kindness also appears in this book The texts most frequently cited to describe meditation are early Sutras the Satipatthana Sutta the Bahia Sutta the Malunkayputta Sutta the Sivaka Sutta and the Kaccayanagotta Sutta For the meditations on thoughts and emotions passages from early Tibetan texts are used as well as the oral teachings of the great twentieth century Tibetan master Dilgo Khyentse Rinpoche In general the philosophical point of view expressed here is consistent with the texts of the great Indian Buddhist philosopher Nagarjuna as well as with the Vimalakirti Sutra one of the main sutras that expounds the middle way the Madhyamaka philosophy Teachers from other spiritual traditions are also cited here including Saint Augustine Meister Eckhart and Martin Buber They shed light on certain important aspects of the spiritual path and are a great source of inspiration Any system of thought is eventually caught in its own game The study of other systems may help to avoid that fate at least partially The reification of the Buddha nature by certain authors the erroneous interpretation of it as a kind of thing to be grasped can serve as an example Meister Eckhart specifically underlines the danger of grasping at the ultimate when he teaches that we must pray to God to free us of God The reflections presented in the second part of this book draw on even more varied sources The chapter in that section on the investigation of consciousness was enhanced by the readings of Jean Paul Sartre s early texts such as The Imagination the Imaginary Emotions Outline of a Theory and The Transcendence of the Ego The works of Friedrich Nietzsche Simone Weil Martin Buber and Sartre have deeply influenced the outlook on morality expressed here Meditations are presented immediately after this introduction so they may be approached with a certain degree of innocence The reflections come last and attempt to support what might otherwise seem dogmatic in the material dealing with meditation Each chapter of this book has been designed to function on its own This has required a certain amount of

repetition so as not to impose a sequential reading order. There are already numerous books expounding Buddhist doctrine. This one is rather an invitation to inner experience.
