**Beyond Confrontation** John A. Vasquez, 1995 An interdisciplinary approach to the politics of peace      **Constructive Interventions** Lars Kirchhoff, 2008-01-01 In the contemporary discipline of conflict resolution adjudication and alternative dispute resolution ADR are often seen as antagonistic trends This important book contends that on the contrary it is the bringing together of these trends that holds the most promise for an effective system of international justice With great insight and passion built firmly on a vast knowledge of the field Lars Kirchhoff exposes the contemporary structural barriers to effective conflict resolution defining where adjudication ends and ADR and particularly the recent development of mediated third party intervention from an art to a veritable science must come into play The work starts by defining the challenges potentials and shortcomings of different approaches to conflict resolution in an interdependent world where the multiplicity of actors topics and interests involved even in seemingly bilateral conflict situations is clearly manifest and goes on to define useful models and connect the various elements relevant for the resolution of conflicts in a transparent way In the course of its investigation the book accomplishes the following illustrates the various departure points and perspectives scholars of conflict resolution have taken as the basis for their work discusses who should become involved in conflicts as a third party and by which techniques this should occur systematically conveys the nature and consequences of intervention through mediation focusing on the method s critical challenges and clarifies the particular model of international mediation under development through UN initiatives In approaching these intertwined topics the author draws concrete conclusions for the realms of international law and related disciplines as well as for the organizational context of the United Nations He explores such diverse scenarios as conflicts between States conflicts involving international organizations and in accordance with the changing parameters of international law even conflicts involving individuals clarifying which constellations can be tackled by international mediation and which conflicts should be dealt with by other forms of diplomacy or adjudication It is the conviction of many intermediaries and scholars that the considerable potential inherent in resolving conflicts peacefully is rarely put into practice Although some of the reasons for this phenomenon are beyond the influence of scholarly debate in many instances the reasons for failure of peaceful resolution processes are more structural or systemic in nature It is the great virtue of this book that it establishes enough clarity in an unclear and complex field to make concrete and workable recommendations in these instances and for that reason it will be of immeasurable value and benefit to all scholars policymakers and activists dedicated to the pursuit of peace      *International Dispute Settlement in an Evolving Global Society* Francisco Orrego Vicuña, 2004-11-25 Lauterpacht Research Centre for International Law University of Cambridge T p

**Beyond Confrontation** John A. Vasquez, 1995-08-17 An interdisciplinary approach to the politics of peace

**Encyclopedia of Violence, Peace, and Conflict** ,2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life

Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world

**Reframing and Resolving Conflict** Karin Aggestam,1999 *Journal of Conflict Studies* ,1996 *Ecology, Politics and Violent Conflict* Mohamed Suliman,1999 Violent internal conflicts in more and more countries are ruining the lives of millions of people and undermining the ability of their governments to provide security and a tolerable economic existence The contributors to this book take a new view of the reasons for this grave development in Africa the Balkans Central Asia and elsewhere They question traditional analyses of conflict which rely primarily on ethnic religious and cultural explanations since these do not take account of the increasingly obvious link between the growing scarcity of renewable resources and violent conflict in developing countries Shortages of cropland fresh water woodfuel pasture and marine resources cannot be ignored At the same time this book argues that one cannot understand domestic conflicts simply in environmental terms For environmental scarcity functions in a society within a complex matrix of historically derived economic and political situations In particular an unequal social distribution of resources exacerbates scarcity and fuels popular conflict

**Managing Sino-American Crises** Michael D. Swaine,2006 The Taiwan Strait The Korean War Vietnam The bombing of the Chinese Embassy in Belgrade The Sino U S aircraft collision incident U S China relations have witnessed significant tensions and conflict over the years Sensitivities and suspicions between Washington and Beijing have heightened as China s global power and influence have grown Arguably this new international order could increase the chances of a political military crisis or perhaps outright conflict between the two powers Managing Sino American Crises brings together Chinese and American officials and

participants in past confrontations as well as scholars from both countries to explore the changing features of crisis behavior and their implications for defusing future encounters Using both conceptual analysis and historical case studies this authoritative volume identifies specific problems and opportunities that will likely confront both countries in the future The authors propose recommendations that will improve the effectiveness of U S China crisis management skills Contributors include Wang Jisi Peking University Zhang Baijia Central Committee of the Chinese Communist Party Richard Weitz Hudson Institute Robert L Suettinger Technology Inc Dennis C Blair Institute for Defense Analyses David V Bonfili Institute for Defense Analyses Xu Hui National Defense University Kurt M Campbell Center for Strategic and International Studies Jonathan Wilkenfeld University of Maryland Xia Liping Shanghai Institute for International Studies Allen S Whiting University of Arizona Wu Baiyi Chinese Academy of Social Sciences Niu Jun Peking University and Zhang Tuosheng China Foundation for International and Strategic Studies
