Daigle, 2020-12-16 In the last decade interest in the writings of French philosopher Simone Weil 1909 1943 has surged Weil

is admired for her militant syndicalism her factory experience and participation in the French resistance but it is above all the eclectic and rich character of her work that has increasingly attracted scholarly attention Weil reflected on subjects as diverse as quantum physics Greek tragedy bankruptcy colonialism technology education and religious metaphysics but perhaps most interesting is the way that her work seems to defy any clear ideological labelling Marxist anarchist liberal conservative and republican all seem to fall short in describing the complexity of Weil's thinking Adding to the interpretive difficulty is the fact that Weil often expressed biting criticisms of most things political What this edited volume argues is that it is precisely Weil's unclassifiable nature combined with her sharp and sometimes ambivalent criticisms of politics that make her work a most timely and fascinating object of study for contemporary political philosophy It proposes a two pronged approach to her thought first via a series of conversations set up between Weil and key authors in modern and contemporary political theory e.g. Sandel Rawls Ahmed Agamben Orwell and secondly via a close study of Weil's reflections on various ideologies The goal of this book is not to position Simone Weil squarely within a single ideological tradition but rather to propose that her thought might allow us to critically engage with various ideologies in the history of political ideas
