Cretan Quests Davina Huxley,British School at Athens,2000 This collection of essays celebrates British scholarly achievements in Crete from the early British pilgrims and travellers to the island to the work of the first antiquarians and archaeologists Seven essays focus on key figures and events from pre 1900 1900 1914 during the First and Second World Wars 1945 1990 and the present and future of exploration on Crete Subsequent contributions take a more thematic approach discussing the Neolithic and Bronze Ages Linear A and B Minoan religion Greek Hellenistic and Roman Crete Byzantine and Arab Crete and the role of the British School at Knossos

**The School Librarian** School Library Association,1986    **How the World Made the West** Josephine Quinn,2025-10-21 An award winning Oxford history professor makes a forceful argument and tells a story with great verve The Wall Street Journal that the West is and always has been truly global Those archaic Western Civ classes so many of us took in college should be updated argues Quinn who invites us to revel in a richer more polyglot inheritance The Boston Globe AN ECONOMIST BEST

BOOK OF THE YEAR LONGLISTED FOR THE CUNDILL HISTORY PRIZE In How the World Made the West Josephine Quinn poses perhaps the most significant challenge ever to the civilizational thinking regarding the origins of Western culture that is the idea that civilizations arose separately and distinctly from one another Rather she locates the roots of the modern West

in everything from the law codes of Babylon Assyrian irrigation and the Phoenician art of sail to Indian literature Arabic scholarship and the metalworking riders of the Steppe to name just a few examples According to Quinn reducing the backstory of the modern West to a narrative that focuses on Greece and Rome impoverishes our view of the past This understanding of history would have made no sense to the ancient Greeks and Romans themselves who understood and discussed their own connections to and borrowings from others They consistently presented their own culture as the result of contact and exchange Quinn builds on the writings they left behind with rich analyses of other ancient literary sources like the epic of Gilgamesh holy texts and newly discovered records revealing details of everyday life A work of breathtaking scholarship How the World Made the West also draws on the material culture of the times in art and artifacts as well as findings from the latest scientific advances in carbon dating and human genetics to thoroughly debunk the myth of the modern West as a self made miracle In lively prose and with bracing clarity as well as through vivid maps and color illustrations How the World Made the West challenges the stories the West continues to tell about itself It redefines our understanding of the Western self and civilization in the cosmopolitan world of today The Cambridge Ancient History: 3rd ed., pt. 1. The Middle East and the Aegean region c. 1800-1380 B.C., 1973. pt. 2.
