*Staging, Playing, Pyrotechnics and Magic: Conventions of Performance in Early English Theatre* Philip Butterworth, 2022-02-07 In this selection of research articles Butterworth focuses on investigation of the practical and technical means by which early English theatre from the fifteenth to the early seventeenth century was performed Matters of staging for both pageant vehicle and theatre in the round are described and analysed to consider their impact on playing by players expositors narrators and prompters All these operators also functioned to promote the closely aligned disciplines of pyrotechnics and magic legerdemain or sleight of hand which also influence the nature of the presented theatre The sixteen chapters form four clearly identified parts staging playing pyrotechnics and magic and drawing on a wealth of primary source material Butterworth encourages the reader to rediscover and reappraise the actors magicians wainwrights and wheelwrights pyrotechnists and in modern terms the special effects people and event managers who brought these early texts to theatrical life on busy city streets and across open arenas The chapters variously explore and analyse the important backwaters of material culture that enabled facilitated and shaped performance yet have received scant scholarly attention It is here among the itemised payments to carpenters and chemists the noted requirements of mechanics and wheelwrights or tucked away among the marginalia of suppliers of staging and ingenious devices that Butterworth has made his stamping ground This is a fascinating introduction to the very nuts and bolts of early theatre Staging Playing Pyrotechnics and Magic Conventions of Performance in Early English Theatre is a closely argued celebration of stagecraft that will appeal to academics and students of performance theatre history and medieval studies as well as history and literature more broadly It constitutes the eighth volume in the Routledge series Shifting Paradigms in Early English Drama Studies and continues the valuable work of that

series of which Butterworth is a general editor in bringing significant and expert research articles to a wider audience CS
