Al-Anbar Awakening, 2009 This two volume anthology of interviews tells the story of the al Anbar Awakening and the emergence of al Anbar Province from the throes of insurgency It presents the perspectives of both Iraqis volume two and Americans volume one who ultimately came to work together in an unlikely alliance of former adversaries for the stabilization and redevelopment of the province The collection begins in the 2003 2004 time frame with the rise of the insurgency and concludes with observations from the vantage point of early to mid 2009 The anthology demonstrates that there is not one history of the Awakening but several histories intertwined It is not a complete collection but one that provides a broad spectrum of candid unvarnished perspectives from some of the leading players

The Awakening of China W. A. P. Martin, 2019-12-02 In *The Awakening of China* W A P Martin presents a compelling exploration of China s socio political and cultural evolution during a pivotal period marked by modernization and reform Written in a succinct yet evocative prose style the book interweaves historical analysis with personal observations providing readers with an insightful perspective on both the triumphs and tribulations of a nation in transformation As a product of the late 19th century when the West s imperialistic gaze fixed upon Asia Martin s work

reflects the complexities of cultural synthesis and resistance that defined China's awakening. His keen observations of Chinese society serve as a backdrop for a broader discourse on the implications of modernization in a rapidly changing global landscape. W. A. P. Martin, an American missionary and sinologist, dedicated much of his life to understanding the rich tapestry of Chinese culture. His linguistic prowess and his experiences residing in China offered him unique insights, allowing him to articulate the nuances of a nation grappling with its identity amid external pressures. Martin's education and commitment to fostering understanding between East and West profoundly influenced his scholarly endeavors, including this seminal work. I highly recommend *The Awakening of China* to scholars and general readers alike who seek to delve into the complexities of China's historical narrative. Martin's lucid writing and perceptive analysis unveil the intricacies of a nation at a crossroads, making this volume both informative and engaging. In this enriched edition, we have carefully created added value for your reading experience. Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read. **Al-Anbar**

renowned clinical psychologist teaches women how to transcend their fears and illusions, break free from societal expectations, and rediscover the person they were always meant to be: fully present, conscious, and fulfilled. *A Radical Awakening* will be of great help to anyone who is ready to transcend the limitations of their personal as well as cultural conditioning and awaken to their true nature as the eternal presence of consciousness itself. Eckhart Tolle, bestselling author of *A New Earth*, *Awakening to Your Life's Purpose*. *A Radical Awakening* lays out a path for women to discover their inner truth and powers to help heal others and the planet. Dr. Shefali helps women uncover the purpose that already exists within them and harness the power of authenticity in every area of their lives. It is set within a

comparative framework that includes other transition countries particularly those in the former Soviet Union The book provides two important theoretical innovations the notion of a regime which is an under theorized concept in the field of transition literature and O Donnell Schmitter and Karl s notion of a dynamic actor driven transition The volume turns to the structural constraints that framed the transition in Georgia and in other republics of the former Soviet Union by looking at the state and society in the USSR at the close of the Soviet period It examines the evolution and nature of the Georgian regime and ultimately addresses the theoretical and empirical problems posed by Georgia s so called Rose Revolution following the falsification of parliamentary elections by the incumbent authorities **The Methodist Review** ,1929
