Periodical Essay in Modernity R. Eric Tippin,2025-03-31 This book takes seriously the late Victorian periodical essay treating it with the same formal care that another study might give to Thomas Hardy's poetry or Henry James's prose It also attends to the essay's periodical context advertisements news serial publication material transience and burying ubiquity It challenges the distinction between serious literature and mere articles that appear in dailies weeklies and monthlies And then it argues that to understand the periodical essay between 1880 and 1920 is to understand the transitions of that period more clearly from belief to doubt from country to city from thick time to clock time The periodical essay is implicated in all these transitions In making this argument this book makes special reference to three authors Oscar Wilde G K Chesterton and Virginia Woolf All three command very different audiences and this book suggests an association between the three as periodical essayists      From Me to We Jason Griffith,2016-08-19 With this practical book you'll learn effective ways to engage students in reading and writing by teaching them narrative nonfiction By engaging adolescents in narrative literary or creative nonfiction they can cultivate a greater understanding of themselves the world around them and what it means to feel empathy for others This book will guide you to first structure a reading unit around a narrative nonfiction text and then develop lessons and activities for students to craft their own personal essays Topics include Engaging your students in the

reading of a nonfiction narrative with collaborative chapter notes empathy check ins and a mini research paper to deepen students understanding Helping your students identify meaningful life events recount their experiences creatively and construct effective opening and closing lines for their personal essays Encouraging your students to use dialogue outside research and a clear plot structure to make their narrative nonfiction more compelling and polished The strategies in this book are supplemented by examples of student work and snapshots from the author s own classroom The book also includes interviews with narrative nonfiction writers MK Asante and Johanna Bear The appendices offer additional tips for using narrative nonfiction in English class text and online resources for teaching narrative nonfiction and a correlation chart between the activities in this book and the Common Core Standards Learning and Personality William K.

Lawrence,2015-09-04 How does an introverted student with a visual or auditory learning preference find success in a classroom built for extroverted kinesthetic learners While student discussion in the classroom is invaluable it also presents an issue for many students not only in how they feel in the class setting but in how they ultimately learn Given the emerging understanding of differing personality types and learning preference it is questionable whether all students are served by socially active methods that mandate students to speak Learning and Personality documents how introverted and intrapersonal students are being subjected to uncomfortable situations in schools today This book focuses on the classroom experience of students who have been identified as learning best through reflection and observation The author uses an American college writing class as the setting to explore the in depth experience of common first year students The results of this primary qualitative study reveal a glaring conflict within mainstream educational theory With more than five years of research and over one hundred references cited from sources that span two centuries this book calls attention to a mass misunderstanding of introversion as well as the effects of instructional methods that appeal to only one type of personality
