Encyclopedia of Adolescence

Roger J.R. Levesque,2014-07-08 The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence Comprehensive in breath and textbook in depth the Encyclopedia of Adolescence with entries presented in easy to access A to Z format serves as a reference repository of knowledge in the field as well as a frequently

updated conduit of new knowledge long before such information trickles down from research to standard textbooks. By making full use of Springer's print and online flexibility the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society. Substantively the Encyclopedia draws from four major areas of research relating to adolescence. The first broad area includes research relating to Self Identity and Development in Adolescence. This area covers research relating to identity from early adolescence through emerging adulthood basic aspects of development e.g. biological, cognitive, social and foundational developmental theories. In addition this area focuses on various types of identity gender, sexual, civic, moral, political, racial, spiritual, religious and so forth. The second broad area centers on Adolescents Social and Personal Relationships. This area of research examines the nature and influence of a variety of important relationships including family, peer, friends, sexual and romantic as well as significant nonparental adults. The third area examines Adolescents in Social Institutions. This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents. These major institutions include schools, religious groups, justice systems, medical fields, cultural contexts, media, legal systems, economic structures and youth organizations. Adolescent Mental Health constitutes the last major area of research. This broad area of research focuses on the wide variety of human thoughts, actions and behaviors relating to mental health from psychopathology to thriving. Major topic examples include deviance, violence, crime, pathology, DSM normalcy, risk, victimization, disabilities, flow and positive youth development.

Middle Childhood Development Mary Jo Zembar, Libby Balter Blume, 2009. *Middle Childhood Development: A Contextual Approach* is a new and integrative resource for practitioners who work with children ages 6 through 12. With a focus on the historical and cultural context of middle childhood and on developmental pathways this text explores the ways in which middle childhood is considered both a stage of development and a transitional period. An Emphasis on Application. Current research is translated into practical applications for educators, parents and other professionals. See the feature Guideposts for Working with School age Children for examples see pages 90, 173 and 332. In addition Stop and Reflect questions embedded in the text also allow readers to integrate and apply chapter content to their own lives for examples see pages 108, 166 and 328. An Integrated Discussion of Research and Theories. Based on recent research findings the authors provide suggestions on what to expect and how to interact with children in middle childhood. Rather than one abstract introductory chapter psychological theories of development are applied throughout the text to address particular chapter content in integrated sections called Theoretical Viewpoints for examples see pages 78, 158 and 304. Each chapter also has a cumulative table of the theories presented in that chapter. Each chapter includes key research on the ecologies of family, school and community highlighted in separate sections called Development in Context for examples see pages 112, 184 and 334. In each chapter pedagogical boxes called Roadmap to Understanding Theory and Research and Roadmap to Successful Practice are included that alert students to key illustrations.
