Of course, counting calories is nothing new. But only 15 percent of us know how many calories we should eat to maintain a healthy weight. Most of us don't know how many calories are in the foods we eat. And most of us don't really want to have to count calories. Now, from Flat Belly Diet author Liz Vaccariello comes 400 Calorie Fix which makes it easy to spot and control calories. 400 Calorie Fix has no banned ingredients, no magic foods and no complicated rules. You'll learn how to eat with the 400 calorie lens, the essential tool they need to assess portion sizes for all types of food at a glance. The book makes calorie control easy and delicious with 400 tasty 400 calorie recipes, quick fix no-cook meals and options that make it easy to dine out whether you're chowing down on a fast food burger or hosting a family cookout.

Food and You Marjolijn Bijlefeld, Sharon K. Zoumbaris, 2001-05-30 What is the BMI? How much should I be eating? Do I really need to exercise? Find the answers to these questions and other food, body and health questions in this guide to understanding the fundamentals of good nutrition and its partner for optimum health, physical activity. Healthy eating can be a habit and good habits started earlier in life are easier to maintain. Good nutrition and physical activity complement each other in weight loss, cardiovascular health and other benefits. Most teens don't need to resort to special diets or programs; they just need to know how to make sensible choices. Definitions of good nutrition, discussions of how the food you eat affects the way you feel and perform, and information on how to use readily available tools such as the Nutrition Facts label and USDA Food Guide Pyramid are just some of the factors provided to help readers develop healthy habits. Bijlefeld and Zoumbaris provide information on a number of other health matters from vegetarian diets to eating disorders to the affects of alcohol and drugs on the body. You'll also learn how to make healthy choices in grocery stores and restaurants, how to set up a kitchen of your own and how to keep your food safe.
