Burger King In Australia:

Fast Food and Junk Food Andrew F. Smith, 2011-12-02 This fascinating and revealing work examines the incredible power of junk food and fast food how nostalgic we are about them the influence of the companies that manufacture or sell them and their alarming effect on our country's state of health In the last half century junk food and fast food have come to play an extremely important role in American economic historical cultural and social life Today they have a major influence on what Americans eat and how healthy we are or aren't *Fast Food and Junk Food An Encyclopedia of What We Love to Eat* tells the intriguing fun and incredible stories behind the successes of these commercial food products and documents the numerous health related environmental cultural and politico economic issues associated with them With more than 700 alphabetically arranged entries this two volume encyclopedia contains enough listings to allow readers to research a wide range of fascinating topics The author treats the massive amount of subject material within this reference title in a fair and balanced manner A secondary focus of this encyclopedia is to chart the spread of some American fast food chains and commercially produced junk foods internationally

Labour Relations in the Global Fast-Food Industry Tony Royle, Brian Towers, 2004-08-02 The fast food industry is one of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights
