The Owner's Manual for Christians Charles R. Swindoll, 2011-02-14 It's never too late Whether you're a new Christian or you've walked the road for decades it's never too late to find the critical truths that make life make sense We often start out believing that common sense will be enough that we're prepared for the road ahead with our good values and quick thinking It doesn't take long to learn otherwise A broken friendship An obsessive career Financial distress Even empty success We come back to God searching for insight for hope And He provides Nothing can replace studying the Bible Best selling author and pastor Charles Swindoll has spent decades studying its pages and teaching its precepts But if sixty-six books seem overwhelming The Owner's Manual for Christians is the perfect starting place a biblical summary of the major truths that anchor the Christian life From grace to freedom these chapters walk the reader through the keys to a life well lived drawn from the Creator of life itself Life is often confusing but it does not have to be impossible Read The Owner's Manual for Christians and find hope for the road ahead

**High-Performance Computing** R.J. Allan, M.F. Guest, A.D. Simpson, D.S. Henty, D. Nicole, 2012-12-06 Over the past decade high performance computing has demonstrated the ability to model and predict accurately a wide range of physical properties and phenomena Many of these have had an important impact in contributing to wealth creation and improving the quality of life through the development of new products and processes with greater efficacy efficiency or reduced harmful side effects and in contributing to our ability to understand and describe the world around us Following a survey of the UK's urgent need for a supercomputing facility for academic research see next chapter a 256 processor T3D system from Cray Research Inc went into operation at the University of Edinburgh in the summer of 1994 The High Performance Computing Initiative HPCI was established in November 1994 to support and ensure the efficient and effective exploitation of the T3D and future generations of HPC systems by a number of consortia working in the frontier areas of computational research The Cray T3D now comprising 512 processors and total of 32 GB memory represented a very significant increase in computing power allowing simulations to move forward on a number of fronts The three-fold aims of the HPCI may be summarised as follows 1 to seek and maintain a world class position in computational science and engineering 2 to support and promote exploitation of HPC in industry commerce and business and 3 to support education and training in HPC and its application
