simply either a re make or the act of turning one medium into another Adaptation then names not only the means by which texts are transformed but also the space in which that transformation takes place T **Australian Film** Brian Reis,1997 Contains entries many with descriptive annotations on books book chapters periodical articles government reports academic theses films videos and audio recordings published in Australia and elsewhere from 1988 to the early and mid 1990s Works cited embrace all aspects of Australian film considered as art industry and sociological phenomenon except extremely technical aspects of filmmaking Categories include film archives and libraries production super 8mm film government and film history and criticism ethnographic film biographies and film criticism and reviews Includes author book title and film title indices Distributed by Books International Annotation copyrighted by Book News Inc Portland OR **Resources in education** ,1984-06 Media Review Digest C.
