enhancement such as liquefied skin injections to smooth wrinkles This book is a history of the nameless corpses from which cadaver stuff is extracted and the entities involved in removing processing and distributing it Pfeffer goes behind the mortuary door to reveal the technical imaginative and sometimes underhanded practices that have facilitated the global industry of transforming human fragments into branded convenience products The dead have no need of cash but money changes hands at every link of the supply chain This book refocuses attention away from individual altruism and onto professional and corporate ethics

Tracing Hospital Boundaries, 2020-04-06 Tracing Hospital Boundaries explores for the first time how the forces of both integration and segregation shaped hospitals and their communities between the eleventh and twentieth centuries in Europe North America and Africa Within this broad comparative context it also shines a light on a number of case studies from Southeastern Europe The eleven chapters show how people's access to and experience of healthcare institutions was affected by social cultural and economic as well as medical dynamics These same

factors intersected with developing healthcare technologies to shape hospital design and location as well as internal policies and practices The volume produces a new history of the hospital in which boundaries both physical and symbolic are frequently contested and redrawn Contributors are Irena Benyovsky Latin David Gentilcore Annemarie Kinzelbach Rina Kralj Brassard Ivana Lazarevi Clement Masakure Anna Peterson Egidio Priani Gordan Ravan i Jonathan Reinarz Jane Stevens Crawshaw David Theodore Christina Vanja George Weisz and Valentina ivkovi **Library Journal** Melvil Dewey, Richard Rogers Bowker,L.
